

Making the Case for Guided Study Halls in Middle and High School

Guided Study Hall

Kelly Ann Welsh

Guided Study Hall:

Student Resistance to Schooling Kelly Ann Welsh, 2012 Improving Homework Completion of Students Through Tutored Study Hall Kori S. Dicken, Carol D. Foreman, Robin L. Jensen, Justin A. Sherwood, 2008 The purpose of this study was to examine the effects of a guided study hall on homework completion. Two groups of students were analyzed in their homework completion rates. Homework completion rates of the students that participated in Site A were reviewed in their five core subjects while the homework completion rates of the students at Site B were only reviewed in their math classes. Site A had 45 students participate in the study. Site B had two students in the study both from the same math teacher. Results indicate at both sites that a guided study hall helped reduce the rate of homework completion. Overall the rate before the study was 8% of homework was not being completed. By the completion of the study hall 4% of homework was incomplete. Results show that with the guidance of a teacher and the presence of a study hall students are more inclined to get their homework completed and may therefore increase the students' understanding. Educators should consider study halls to be a beneficial time for students who frequently do not complete their homework and even more beneficial if the teacher assists the students with their homework. Twelve appendixes include: 1 Student Consent Form, 2 Teacher Consent Form, 3 Parent Consent Form, 4 Research Tracking Log, 5 Pre Survey for Parents, 6 Pre Survey for Students, 7 Homework Log, 8 Study Hall Sign In Sheet, 9 Student Reflections Form, 10 Teacher Researcher Reflections Form, 11 Post Survey for Students, and 12 Post Survey for Parents. Contains 7 figures and 7 tables. Master of Arts Action Research Project, Saint Xavier University.
