

1. Needle stop display

This button  sets whether the needle stops up or down in the material when you lift your foot from the foot control and stop sewing. Point the arrow upwards – the needle will stop in the up position when you lift your foot from the foot control. When you touch the button so that the arrow points downward, the machine will stop with the needle in the material.

You can also regulate the needle stop position with the foot control. To raise or lower the needle after stopping, lightly tap the foot control.

2. Sewing speed display

Use the **SPEED** button to set the three different maximum speeds. The ma-

chine will sew at different maximum speeds when the foot control is fully

depressed. For slower speeds within the range simply depress the foot control less. All stitches in the machine have a pre-set maximum speed at which they can be sewn. When you select a stitch the machine automatically sets the correct maximum speed.

3. STOP display

The **STOP** button is used to conclude a pattern, i.e. the machine fastens the thread and stops automatically when the sewing of the pattern picture has been completed. **STOP** is cancelled when you press the button again or by selecting a new stitch.

4. Display to show empty bobbin

When the bobbin thread has almost come to an end, the machine will provide a "beep" warning and the  symbol will flash on the display.

5. Display to show the pre-set stitch length

When you select a stitch, the machine will automatically set the best stitch length which will be indicated

by numbers on the display. You can change the stitch length by pressing either the (+) or (-) button. Certain stitches have a limited stitch length. The machine indicates this with a "beep" if you attempt to exceed the limits.

6. Recommended feed teeth lowering

The feed-teeth must be lowered when the **XXX** symbol is displayed and flashes. This is done by pressing down the feed teeth lowering button **XXX** next to the power switch.

7. Recommended presser foot pressure

The figure above the presser foot indicates whether the pressure is suitable. The presser foot pressure is adjusted with the dial on the left hand side of the machine.

8. Recommended presser foot

The letter shows which presser foot is correct for the stitch or the pattern you have selected. The corresponding letter is on the presser foot.

Husqvarna Viking Plus 1 Manual

M Planty

Husqvarna Viking Plus 1 Manual:

Immerse yourself in the artistry of words with is expressive creation, Discover the Artistry of **Husqvarna Viking Plus 1 Manual** . This ebook, presented in a PDF format (*), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge.
