A Question of Inequality Christopher Steed, 2018-07-30. Inequality is widening. In the twenty-first century, the gap between those who have more and those who have less is growing. 1 per cent of the world owns as much as the other 99 per cent. Should we be worried? Christopher Steed, author of the acclaimed *A Question of Worth*, argues that inequality does indeed matter: that economic fairness is one of the defining issues of our time. In a world conditioned by social media, enabling intensified social comparison, the anxieties and effects of contemporary inequality are a cause for huge concern. Despite a wealth of research around inequality, most studies have concentrated on its quantitative aspects. In *A Question of Inequality*, Christopher Steed is concerned with exploring why inequality matters, what it means for those who find themselves victims of it, and what can be done about it. He probes what it means to experience inequality, drawing out case studies on the effects of poverty. In proposing a theory of social relativity, the author provides new insights into the effects and meaning of inequality and makes an original and important contribution to a key issue facing the world today.

Learning for a Diverse World Lois Tyson, 2001 Lois Tyson explains the basic concepts of six critical theories in popular academic use today: psychoanalytic, Marxist, feminist, gay/lesbian, African American, and postcolonial, and shows how they can be employed to interpret five short literary works in the book *Spiritual, Blues, and Jazz People in African American Fiction*. A. Yemisi Jimoh, 2002 In this book A. Yemisi Jimoh demonstrates the critical influence of music on the fiction of various twentieth-century African American writers. Exploring novels and short stories by Toni Morrison, John Edgar Wideman, Zora Neale Hurston, James Baldwin, Ralph Ellison, and others, Jimoh shows how black musical traditions—specifically Spirituals, Blues, and Jazz—are used to shape characterizations and thematic content and to evince ideas, emotions, and experiences. The author's analysis situates the literary texts she discusses within the diverse social energies of their times and locates important intersections where music, history, politics, and literature meet. Jimoh carefully distinguishes among the different musical forms and shows how in fiction they are transformed into rich metaphors. She explains, for example, how characters and themes drawing on the Spiritual Gospel tradition de-emphasize human agency, depicting earthly survival as a transitory state and heavenly triumph as a victory. By contrast, in Blues fiction characters must often negotiate an environment of alienation, change, and uncertainty in order to achieve a more earthly triumph, even if that triumph is only survival. Jazz fiction, meanwhile, goes beyond Blues and Spiritual expressions to explore new realms, revealing a space for infinite options, radical change, resistance, and revolution. This innovative book examines novels that have not previously received extensive attention, including Albert Murray's *Train Whistle Guitar*, Wallace Thurman's *The Blacker the Berry*, and Ann Petry's *The Street*. At the same time, it brings fresh and intriguing readings to such widely studied works as Ellison's *Invisible Man* and Morrison's *Sula*. Finally, it suggests some exciting directions for future study as new generations of African American musicians and writers continue to develop and expand on established traditions and forms. The Author A. Yemisi Jimoh is an associate professor of English at the University of Arkansas, Fayetteville. Her articles have appeared in *African American Review*, *Contemporary African American Novelists*, and other publications. *Father-Daughter Incest in Twentieth-Century American Literature* Christine Grogan, 2016-10-03 The first major study to challenge the narrow definition of post-traumatic stress disorder (PTSD) by rereading six American literary texts, this book argues for the importance of literature in representing not just circumscribed, singular traumatic events as Cathy Caruth argued in the late nineties, but for giving voice to chronic and cumulative or complex traumatic experiences. This interdisciplinary study traces the development of father-daughter incest narratives published in the last hundred years, from male-authored fiction to female-authored memoir, bringing new readings to Fitzgerald's *Tender Is the Night*, Ellison's *Invisible Man*, and the Dylan Farrow-Woody Allen case. This study builds on the work of those ushering in a second wave of trauma theory, which has argued that the difficulty of speaking about a traumatic experience is not necessarily caused by neurobiological changes that prevent victims from recalling details. Rather, it's from social and political repercussions. In other words, they argue that many who experience trauma aren't unable to deliver

accounts they fear the results There is a significant gender component to trauma whose implications along with those of race and class have largely gone unexamined in the first wave of trauma theory Exploring two additional questions about articulating trauma this book asks what happens when the voice of trauma is crying out from what Toni Morrison has called the most delicate most vulnerable member of society a female child and second what happens when the trauma is not just a time limit event but chronic and cumulative experiences Some traumatic experiences namely father daughter incest are culturally reduced to the untellable and yet accounts of paternal incest are readily available in American literature This book is written in part as a response to the psychological community which failed to include complex PTSD in the latest edition of the DSM DSM 5 denying victims many of whom are father daughter incest survivors the validation and recognition they deserve and leaving many misdiagnosed and thereby mistreated English Alive Wb 7 (18-19) No Author,2020-10-07

It was a monumental achievement when it came out as a first edition in 1999 bringing years of rigorous reading research together in a framework for teaching that made sense in actual secondary school classrooms. Now just thirteen years later Schoenbach and Greenleaf have several randomized clinical trials and multiple on going studies at their fingertips to demonstrate the effects of this approach for developing the reading and thinking of young people in our nation's middle and high school classrooms as well as in community college classrooms. Their careful work on developing disciplinary literacy among all students represents a passion for and commitment to supporting students and their teachers in reading for understanding which translates to reading for enjoyment, self awareness, learning and for purposeful and informed action in our society.

Elizabeth Moje, Arthur F. Thurnau, Professor and Associate Dean for Research, School of Education, University of Michigan, Reading Apprenticeship has proven to be an inspiration to Renton Technical College faculty and students alike. They have learned together to view themselves as readers in transformative ways as they embrace powerful techniques to increase reading comprehension. The ideas and strategies in *Reading for Understanding* anchor this new and broad based energy around reading and an enthusiasm among our faculty to model effective reading strategies for our students.

Steve Hanson, President, Renton Technical College, Renton, Washington, *Reading for Understanding* has the finest blend I have seen of research strategies and classroom vignettes to deepen teacher learning and help them connect the dots between theory and practice.

Worldly Acts and Sentient Things Robert A. Chodat, 2018-07-05. Ants, ghosts, cultures, thunderstorms, stock markets, robots, computers, this is just a partial list of the sentient things that have filled American literature over the last century. From modernism forward, writers have given life and voice to both the human and the nonhuman and in the process addressed the motives, behaviors and historical pressures that define lives or things both everyday and extraordinary. In *Worldly Acts and Sentient Things*, Robert Chodat exposes a

major shortcoming in recent accounts of twentieth century discourse What is often seen as the death of agency is better described as the displacement of agency onto new and varied entities Writers as diverse as Gertrude Stein Saul Bellow Ralph Ellison and Don DeLillo are preoccupied with a cluster of related questions Which entities are capable of believing something saying something desiring hoping hating or doing Which things in turn do we treat as worthy of our care respect and worship Drawing on a philosophical tradition exemplified by Ludwig Wittgenstein and Wilfrid Sellars Chodat shows that the death of the Cartesian ego need not entail the elimination of purposeful action altogether Agents do not dissolve or die away in modern thought and literature they proliferate some in human forms some not Chodat distinguishes two ideas of agency in particular One locates purposes in embodied beings persons the other in disembodied entities presences Worldly Acts and Sentient Things is a an engaging blend of philosophy and literary theory for anyone interested in modern and contemporary literature narrative studies psychology ethics and cognitive science [Punctuation](#) Jennifer DeVere Brody,2008-05-21
