

DIAGRAM AND PARTS DESCRIPTION

1. **Microphone Input with Volume Control (MIF)**
This input accepts a 1/8" input such as a microphone, guitar, or other musical instrument.
2. **Auxiliary Input** This stereo 3.5mm (1/8") input can be used to connect a CD player, MP3 player, or other audio source.
3. **Bluetooth** The **Power LED** will be lit when a device is paired to EXPLORER BLUETOOTH. This LED will not be lit when EXPLORER BLUETOOTH is first powered on because it was previously paired with a device. Press the **Bluetooth** button to disconnect a paired Bluetooth device.
4. **Master Volume Control** This adjusts the speaker's main volume, which includes the Microphone Input, Auxiliary Input, Power, and the audio of a paired Bluetooth device.
5. **MP3 Presets** Store a favorite radio station and quickly tune to a preset radio station. There are 6 numeric presets for AM stations, and 6 numeric presets for FM stations. To set a preset:
 - A. Select either the AM or FM band and then use the **Tuner** buttons to select the desired radio station.
 - B. Press and hold a numeric preset button to assign the current station to that preset number. To use an added preset, tap a preset number once lightly to go to the stored radio station.
6. **Radio Selector** This switch sets the tuner to AM or FM or turns the tuner off. **Note:** This switch does not turn the unit's power off – just the tuner.
7. **LED** Displays the current radio station.
8. **Tuner** Use these buttons to search for a radio station. To "tune" (jump to the next available station), hold this down for a few seconds until it starts to seek a station. The unit will remember the last station you seek on and start at that station when you power off and power on again.
9. **Power LED** Indicates whether EXPLORER BLUETOOTH is on or off.
10. **USB Charge** Connect your device's charge cable here to charge a USB charging only functions when the unit's screen is turned on.
Note: Users with iPad (2nd generation or higher) may experience screen charging. We recommend charging with the screen locked when using iPad (2nd generation or higher).
11. **Device Cradle** Place your iPad/iPad (second generation) or other device here to be held. These can be connected via Bluetooth or to the aux input using the included 3.5mm (1/8") to 3.5mm (1/8") cable.
Note: It is recommended to remove your iPad or other device from the cradle before transporting or traveling with EXPLORER.
12. **Antenna** Adjust this FM antenna to get the best radio reception.
Note: To prevent accidental damage, we recommend sliding the antenna only when it is positioned horizontally. Also, retract the antenna when the Tuner is not in use. **Note:** When using AM radio, if you have a Bluetooth device that is paired, the unit cannot tune AM reception. Unpair your Bluetooth device in order to listen to AM radio.
13. **Power Cable Input (PCI)** Insert the included power cable here to charge the unit. Note that the EXPLORER BLUETOOTH can run off the power adapter while it simultaneously charges the battery. The charge indicator illuminates when the battery is charging.
14. **Voltage Selector** If your unit has a voltage selector switch, change its setting only when necessary (e.g., when traveling to a country or region with a different voltage), and replace the fuse with one with an appropriate rating printed under the unit's power cable input, next to the desired voltage. Selecting an improper voltage setting or using a fuse with an incorrect rating can damage the unit and/or the fuse. If the voltage selector is covered, only remove "cover" screws of the cover and slide it aside to expose the selector.
15. **Fuse Cover** If the unit's fuse is broken or if you are changing the setting of the voltage selector switch, use a screwdriver or other tool to lift the lid to replace the fuse. Replace it with a fuse with an appropriate rating printed under the unit's power cable input, next to the desired voltage. Using a fuse with an incorrect rating can damage the unit and/or the fuse.
16. **Power/Bluetooth Switch** Turns EXPLORER BLUETOOTH on or off. Please note that while EXPLORER BLUETOOTH is connected to a power source, it does not need to be powered on to charge the battery.
17. **Battery Level Indicator** When the unit is powered (on) and unit is not plugged in, these four lights indicate the power left in the battery. Battery life varies based on volume and usage.
18. **Charging LED** This illuminates when the unit is attached to wall power and is in the process of charging.

WARNING: If your unit has a voltage selector switch, change its setting only when necessary (e.g., when traveling to a country or region with a different voltage), and replace the fuse with one with an appropriate rating printed under the unit's power cable input, next to the desired voltage. Selecting an improper voltage setting or using a fuse with an incorrect rating can damage the unit and/or the fuse. If the voltage selector is covered, only remove "cover" screws of the cover and slide it aside to expose the selector.

Ion Explorer Bluetooth Manual

Karin Nielsen-Saines

Ion Explorer Bluetooth Manual:

Yeah, reviewing a book **Ion Explorer Bluetooth Manual** could amass your close links listings. This is just one of the solutions for you to be successful. As understood, success does not recommend that you have extraordinary points.

Comprehending as well as settlement even more than new will allow each success. bordering to, the pronouncement as competently as sharpness of this Ion Explorer Bluetooth Manual can be taken as without difficulty as picked to act.
