Each segment represents one second. This is to let you know that a stopwatch operation is in progress.
 - All of the operations in this section are performed in the Stopwatch Mode, which you enter by pressing (C).

Important

- Check to make sure that the speed hand is not moving before you perform any Stopwatch Mode button operation.

 - No speed calculation is performed when 0.0 is specified as the current distance value.
 - For lap time readings, you can specify either the lap distance (times at the top) and the same distance, or the total race distance.
 - For split time readings, you can specify the total race distance only. Though the watch will calculate a speed each time you take a split reading, they will be based on the total race distance, and so they will not indicate actual intermediate split speeds.
