Recent Advances in Materials, Mechanics and Management Sheela Evangeline, M.R. Rajkumar, Saritha G.

Parambath, 2019-05-14 These proceedings present a selection of papers presented at the 3rd International Conference on Materials Mechanics and Management 2017 IMMM 2017 which was jointly organized by the Departments of Civil Engineering Mechanical Engineering and Architecture of College of Engineering Trivandrum Developments in the fields of materials mechanics and management have paved the way for overall improvements in all aspects of human life The quest for meeting the requirements of the rapidly increasing population has led to revolutionary construction and production technologies aiming at optimum management and use of natural resources The objective of this conference was to bring together experts from academic institutions industries research organizations and professionals for sharing of knowledge expertise and experience in the emerging trends related to Civil Engineering Mechanical Engineering and Architecture IMMM 2017 provided opportunities for young researchers to actively engage in research discussions new research interests research ethics and professional development

Handbook of Robust Low-Rank and Sparse Matrix Decomposition Thierry Bouwmans, Necdet Serhat Aybat, El-hadi Zahzah, 2016-09-20 Handbook of Robust Low Rank and Sparse Matrix Decomposition Applications in Image and Video Processing shows you how robust subspace learning and tracking by decomposition into low rank and sparse matrices provide a suitable framework for computer vision applications Incorporating both existing and new ideas the book conveniently gives you one stop access to a number of different decompositions algorithms implementations and benchmarking techniques Divided into five parts the book begins with an overall introduction to robust principal component analysis PCA via decomposition into low rank and sparse matrices The second part addresses robust matrix factorization completion problems while the third part focuses on robust online subspace estimation learning and tracking Covering applications in image and video processing the fourth part discusses image analysis image denoising motion saliency detection video coding key frame extraction and hyperspectral video processing The final part presents resources and applications in background foreground separation for video surveillance With contributions from leading teams around the world this handbook provides a complete overview of the concepts theories algorithms and applications related to robust low rank and sparse matrix decompositions It is designed for researchers developers and graduate students in computer vision image and video processing real time architecture machine learning and data mining

Quakeland Kathryn

Miles, 2017-08-29 A journey around the United States in search of the truth about the threat of earthquakes leads to spine tingling discoveries unnerving experts and ultimately the kind of preparations that will actually help guide us through disasters It s a road trip full of surprises Earthquakes You need to worry about them only if you re in San Francisco right Wrong We have been making enormous changes to subterranean America and Mother Earth as always has been making some of her own The consequences for our real estate our civil engineering and our communities will be huge because they

will include earthquakes most of us do not expect and cannot imagine at least not without reading Quakeland Kathryn Miles descends into mines in the Northwest dissects Mississippi levee engineering studies uncovers the horrific risks of an earthquake in the Northeast and interviews the seismologists structural engineers and emergency managers around the country who are addressing this ground shaking threat As Miles relates the era of human induced earthquakes began in 1962 in Colorado after millions of gallons of chemical weapon waste was pumped underground in the Rockies More than 1 500 quakes over the following seven years resulted The Department of Energy plans to dump spent nuclear rods in the same way Evidence of fracking s seismological impact continues to mount Humans as well as fault lines built our quakeland What will happen when Memphis home of FedEx s 1 5 million packages a day hub goes offline as a result of an earthquake along the unstable Reelfoot Fault FEMA has estimated that a modest 7 0 magnitude quake twenty of these happen per year around the world along the Wasatch Fault under Salt Lake City would put a 33 billion dent in our economy When the Fukushima reactor melted down tens of thousands were displaced If New York s Indian Point nuclear power plant blows ten million people will be displaced How would that evacuation even begin Kathryn Miles tour of our land is as fascinating and frightening as it is irresistibly compelling **Graphene, Nanotubes and Quantum Dots-Based Nanotechnology** Yarub Al-Douri,2022-07-28
