Manual of Nursing Home Practice for Psychiatrists American Psychiatric Association, 2008-11-01. The shifting demographic toward a graying population coupled with today's reality of managed care makes the need for high quality, cost-effective psychiatric services within the nursing care setting more urgent than ever. The product of the American Psychiatric Association's APA's Council on Aging and its Committee on Long Term Care and of the Elderly, the *Manual of Nursing Home Practice for Psychiatrists* stands out because it focuses on the how, not the why, of nursing home care. Of exceptional importance is its detailed discussion of the Minimum Data Set (MDS), a structured assessment required by both Medicare and Medicaid for all residents of skilled nursing facilities. Divided into six sections, this how-to volume contains practical information readers can use right away, from getting reimbursed by insurance companies to handling nursing facility politics, clinical history, evaluation and management of psychiatric problems in long-term care patients, an overview of the MDS, sexuality within the nursing home care setting, Regulatory Introduction to the Nursing Home Reform Act of 1987, part of OBRA 87 and its implications for psychiatric care, details about the Resident Assessment Instrument (RAI) which includes the MDS, the Resident Assessment Protocols (RAPs) and Utilization Guides specified in the State Operations Manual (SOP), Financial Documentation, reimbursement and coding, what to look for when contracting with nursing homes, Legal and ethical, The dehumanizing effect of diagnostic labels and the ethical issues inherent in regulating daily schedules (e.g., bed, meal, and bath times), nursing home placement, competence and decision-making ability, comfort care for end-stage dementia, coping with Alzheimer's disease and the role of caregivers, Summary and Future Perspectives. A detailed vision about how psychiatrists can improve the diagnosis and treatment of nursing home patients. Appendixes and bibliography. Staffing recommendations and assessment instruments. Edited by a distinguished authority and former chair of the APA's Committee on Long Term Care and Treatment of the Elderly, this comprehensive volume will appeal to a wide audience of professionals from general psychiatrists, nurse practitioners and clinical nurse specialists to primary care physicians and residents.
