*Leveraging urbanization for inclusive development in Malawi: Anchoring the secondary city development of Salima and Chipoka in a modernizing fruit value chain* De Weerd, Joachim,Pienaar, Louw,Hami, Emmanuel,Durand, Wiltrud,2023-06-16 Agricultural development in Malawi faces an important conundrum While agriculture is the backbone of the economy many smallholders will not be able to farm their way out of poverty Shrinking farmland size severely limits the total income that can be earned from farming even at much higher levels of productivity per area farmed than are now achieved Urbanization embedded in the modernization of locally relevant value chains provides a promising pathway to inclusive development as it serves to simultaneously raise farm incomes create income earning opportunities off the farm and create specialized urban hubs that can boost urban economic growth through agglomeration economies After laying out these concepts conceptually we apply them to a specific example of a modernizing mango value chain in Salima Chipoka Salima and Chipoka form an urban cluster about 100 km from the capital Lilongwe located on the lakeshore of Lake Malawi The Malawi Secondary Cities Plan has identified this cluster as one of eight that are to form an interconnected network of secondary cities geographically spread across the country with productive activities in each anchored in the economy of their rural hinterlands *A Dream*

*Realised* Ulrike Hill,Zanele Chakela,2020-01-06 How can there be only one dedicated hospital in the country for our children When Madiba asked this question he sowed the seeds of a challenge that would grow into a legacy A seed may be small but its size is disproportionate to what it can become over time The Nelson Mandela Children s Hospital was a project that seemed impossible when it was just an idea that started with ten people seated around a dinner table As they discussed the state of healthcare in the country and shared their experiences they realised that it was the children of Southern Africa who were the most disadvantaged by the lack of dedicated paediatric facilities At the end of the evening a statement by the late Dr Nthato Motlana took hold and became the catalyst for a remarkable journey I will speak to Nelson he said With South Africa s first democratically elected president Nelson Mandela s backing the board of the Children s Fund was inspired to take up the challenge to address this vital need After years of global research and advice from experts in numerous different fields a Trust was formed to oversee the project and critically to set about raising the one billion rand it would take to build equip and staff a state of the art children s hospital The stories behind the planning for fundraising and building of the Nelson Mandela Children s Hospital are inspiring personal and sometimes heart breaking It was a long and arduous journey beset with difficulties but the dedicated team s commitment and courage prevailed to create a living legacy that will truly impact the lives of children for generations to come Today the Nelson Mandela Children s Hospital in Johannesburg is a proud testimony to a uniquely African story which honours the memory of a great statesman and celebrates the children for whom he cared so deeply

**Compensation Schemes for Damages Caused by Healthcare and Alternatives to Court Proceedings** Dobrochna Bach-Golecka,2021-05-16 The book discusses compensation mechanisms and other non judicial means that offer alternatives to court proceedings designed and provided for within national legal regimes Such schemes are primarily of a civil or administrative character and are mainly intended to supplement criminal liability for medical negligence As such the book focuses on medical malpractice and prospective medical harm from a civil law perspective It examines the contemporary perspective of a patient physician relationship which has evolved from a relation of a quasi patrimonial character into a partnership of quasi equal parties dealing with a medical treatment procedure as a scientific endeavor It also reviews the extra legal conditions that are taken into account in compensation arrangements particularly the need to satisfy a psychological urge for conciliation and empathy on the part of medical personnel Lastly the book explores

the responsibility of public authorities and healthcare providers to guarantee access to healthcare that is of a sufficient quality based upon standards provided for in international and European law      **Dante International** Sharon Kasanda,2012 A serial killer is on the loose in Windhoek A police officer follows his intuition to arrest a prime suspect What if he has it wrong      **Ownership and Governance of Companies** Jonathan Michie,Vishnu Padayachee,2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC s mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics      *Emerging Infectious Diseases* Onder Ergonul,Fusun Can,Murat Akova,Lawrence Madoff,2014-05-13 More than 30 newly emerged microorganisms and related diseases have been discovered in the past 20 years Since these infections are so new even infectious diseases experts and clinical microbiologists need more information This book covers recently emerged infectious diseases based on real cases and provides comprehensive information including different aspects of the infections Written in a teaching style this book is of interest to every medical specialist and student Includes more than 35 emerging infection cases based on the following criteria newly emerged or re emergedrecently acquired significance in clinical practicerecently radically changed in case management Offers a balanced synthesis of basic and clinical sciences for each individual case presenting clinical courses of the cases in parallel with the pathogenesis and detailed microbiological information for each infection Describes the prevalence and incidence of the global issues and current therapeutic approaches Presents the measures for infection control      **Explorations in Southern African Drama, Theatre and Performance** Patrick J. Ebewo,2017-05-11 In spite of the rich repertoire of artistic traditions in Southern Africa particularly in the areas of drama theatre and performance there seems to be a lack of a corresponding robust academic engagement with these subjects While it can be said that some of the racial groups in the region have received substantial attention in terms of scholarly discussions of their drama and theatre performances the same cannot be said of the black African racial group As such this

collection of thirteen chapters represents a compendium of critical and intellectual discourses on black African drama theatre and performance in Botswana Lesotho South Africa and Swaziland The topics covered in the book include amongst others ritual practices interventionist approaches to drama textual analyses and the funeral rites viewed as performance of the South African liberation icon Nelson Mandela The discussions are rooted mainly using African paradigms that are relevant to the context of African cultural production The contributions here add to the aggregate knowledge economy of Southern Africa promote research and publication and provide reading materials for university students specialising in the performing arts As such the book will appeal to academics theatre scholars cultural workers and arts administrators arts practitioners and entrepreneurs the tourism industry arts educators and development communication experts
