Adjutant-General's Office, 1947 Federal Register, 2013-12 **Resistant City: Histories, Maps And The Architecture Of Development** Eunice Mei Feng Seng, 2020-02-24 This vivid book is an inquiry into the stagnation between the development of architectural practice and the progress in urban modernization It is about islands as territories of resistance It is about dense places where multitudes dwell in perennial contestations with the city on every front It is about the histories tactics and spaces of everyday survival within the hegemonic sway of global capital and unstoppable development It is preoccupied with making visible the culture of resistance and architecture s entanglement with it It is about urban resilience It is about Hong Kong where uncertainty is status quo This interdisciplinary volume explores real and invented places and identities that are created in tandem with Hong Kong s urban development Mapping contested spaces in the territory it visualizes the energies and tenacity of the people as manifest in their daily life social and professional networks and the urban spaces in which they inhabit Embodying the multifaceted nature of the Asian metropolis the book utilizes a combination of archival materials public data sources field observations and documentation analytical drawings models and maps Related Link s **Facing Authority** Thomas Fossen, 2023-10-24 Political protest is often at least partially about the question of legitimacy How can we distinguish whether a regime is legitimate or merely purports to be so In *Facing Authority* Thomas Fossen develops a new philosophical approach to political legitimacy interweaving analyses of key concepts including representation identity and temporality with examples of real life struggles for legitimacy from the German Autumn to the Arab Spring Instead of asking what makes authorities legitimate in the abstract Fossen investigates

how the question of legitimacy manifests itself in practice The result is a pragmatist alternative to predominant moralist and realist approaches to legitimacy in political philosophy

Is Gwyneth Paltrow Wrong About Everything? Timothy Caulfield, 2016-05-10 An exploration of the effect our celebrity dominated culture has on our ideas of what it means to live the good life What would happen if an average Joe tried out for American Idol underwent a professional makeover endured Gwyneth Paltrow's Clean Cleanse and followed the outrageous rituals of the rich and famous Health law policy researcher Timothy Caulfield finds out in this thoroughly unique engaging and provocative book about celebrity culture and its iron grip on today's society Over the past decade our perceptions of beauty health success and happiness have become increasingly framed by a popular culture steeped in celebrity influence and ever more disconnected from reality Research tells us that our health decisions and goals are influenced by celebrity culture and endorsements our children's ambitions are now overwhelmingly governed by the fantasy of fame and the ideals of beauty and success are mediated through a celebrity dominated worldview But while much has been written about the cause of our obsession with the rich and famous Caulfield argues that not enough has been done to debunk celebrity messages and promises about health diet beauty or happiness From super thin models to Gwyneth Paltrow's endorsement of a gluten free diet for almost anyone celebrity opinions have the power to dominate our conversations and outlooks In this book Caulfield provides an entertaining look into the celebrity world including vivid accounts of his own experiences trying out for American Idol having his skin resurfaced and doing the cleanse interviews with actual celebrities thought provoking facts and a practical and evidence based reality check on our own celebrity ambitions

CLEO publications in Frontiers in Marine Science Foreword Josef Aschbacher Director of ESA's Earth Observation Programmes Satellite data have drastically changed the view we have of the oceans Covering about 70% of Earth's surface oceans play a unique role for our planet and for our life but large areas remain unexplored and are difficult to reach Since the 1980s Earth orbiting satellites have helped to observe what is happening at the ocean surface Sensors like CZCS AVHRR SeaWiifs and MODIS provided the first ocean colour data from space Starting in 2002 ESA's Medium Resolution Imaging Spectrometer MERIS on board the environmental satellite Envisat provided detailed information on phytoplankton biomass and concentrations of other matter in the global oceans These satellite observations laid the groundwork for studying the marine environment and how it responds to climate change and the research community has since delivered information on the variability of marine ecosystems Part of this work is reflected in this stunning collection of peer reviewed publications presented at the workshop Colour and Light in the Ocean from Earth Observation CLEO held at ESA's ESRIN site in Frascati Italy on 6-8 September 2016 The event attracted more than 160 participants from all over the world including remote sensing experts marine ecosystem modelers in situ observers and users of Earth observation data Scientifically the meeting covered applications in climate studies over primary productivity and ocean dynamics to pools of carbon and phytoplankton diversity at global and regional scales It also demonstrated the potential of Earth observation and its contribution to modern oceanography Looking to the future new satellites developed by ESA under the coordination of the European Commission will further our scientific and operational observations of the seas With Sentinel 3A in orbit and its twin Sentinel 3B following in 2017 there is a new category of data available for operational oceanographic applications and climate studies for years to come These data are free and easy to access by anyone interested Looking at the role of oceans in our daily lives I am sure that this collection of scientific excellence will be valued by scientists of today and will inspire the next generation to carry these ideas into the future

The Digital Double Bind Mohamed Zayani, Joe F. Khalil, 2024 The Middle East's digital turn has renewed hopes of socio economic development and political change across the region but it is also marked by stark contradictions and historical tensions In this book Mohamed Zayani and Joe F Khalil contend that the region is caught in a digital double bind in which the same conditions that drive the state market and public immersion in the digital also inhibit change and perpetuate stasis The Digital Double Bind offers a path breaking analysis of how the Middle East negotiates its relation to the digital and provides a roadmap for a

critical engagement with technology and change in the Global South **Urban Informatics** Wenzhong Shi, Michael F. Goodchild, Michael Batty, Mei-Po Kwan, Anshu Zhang, 2021-04-06 This open access book is the first to systematically introduce the principles of urban informatics and its application to every aspect of the city that involves its functioning control management and future planning It introduces new models and tools being developed to understand and implement these technologies that enable cities to function more efficiently to become smart and sustainable The smart city has quickly emerged as computers have become ever smaller to the point where they can be embedded into the very fabric of the city as well as being central to new ways in which the population can communicate and act When cities are wired in this way they have the potential to become sentient and responsive generating massive streams of big data in real time as well as providing immense opportunities for extracting new forms of urban data through crowdsourcing This book offers a comprehensive review of the methods that form the core of urban informatics from various kinds of urban remote sensing to new approaches to machine learning and statistical modelling It provides a detailed technical introduction to the wide array of tools information scientists need to develop the key urban analytics that are fundamental to learning about the smart city and it outlines ways in which these tools can be used to inform design and policy so that cities can become more efficient with a greater concern for environment and equity **Quarterly Review of Distance Education** Michael Simonson, Charles Schlosser, 2018-07-01 The Quarterly Review of Distance Education is a rigorously refereed journal publishing articles research briefs reviews and editorials dealing with the theories research and practices of distance education The Quarterly Review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in the public and private sectors The Quarterly Review publishes full length manuscripts as well as research briefs editorials reviews of programs and scholarly works and columns The Quarterly Review defines distance education as institutionally based formal education in which the learning group is separated and interactive technologies are used to unite the learning group **The Cyprus Detention Camps** Yitzhak Teutsch, 2019-07-23 Beginning in August 1946 stateless and visaless Jews most of them survivors of the Nazi death camps who sought to immigrate to the Land of Israel were intercepted by the Royal Navy and deported to the nearby island of Cyprus where they were detained in camps surrounded by barbed wire Despite occupying a dramatic and fateful position in modern history this saga has remained largely inaccessible due to the widespread dispersal of the primary sources and the linguistic difficulties presented by them To address these problems this book scrutinizes the scholarly literature consulting hundreds of primary sources many of them previously unknown on three continents bringing together interviews with scores of eyewitnesses and translating foreign language terms into English The result is a comprehensive meticulously footnoted guide that uses such tools as maps a detailed timeline and biographical entries to make this riveting saga accessible to a broad audience of scholars and general readers *Social, Mobile, and Emerging Media around the World* Alexander V. Emerging Media around the World Communication Case Studies is an edited collection of cutting edge research on the practical applications of diverse types of emerging media technologies in a variety of industries and in many different regions of the world In recent years emergent social media have initiated a revolution comparable in impact to the industrial revolution or the invention of the Internet Today social media s usage statistics are mind boggling almost two billion people are Facebook users over one billion people communicate via What sApp over forty billion pictures are posted on Instagram and over one million snaps are sent on Snapchat daily This edited collection analyzes the influence of emerging media technologies on governments global organizations non profits corporations museums restaurants first responders sports medicine television and free speech It studies such new media phenomena as brandjacking crowd funding crowd mapping augmented reality mHealth and transmedia focusing specifically on new media platforms like Facebook and Facebook Live Twitter Sina Weibo Yelp and other mobile apps *Meta-Scenario Computation for Social-Geographical Sustainability* Jun Yang,Bing Xue,Xiangming Xiao,Jianhong Xia,Xinli Ke,2023-03-02 **Glial Cells: Managers of Neuro-immunity** Carlos Barcia,Gilles J. Guillemin,James F. Curtin,Jeffrey M. Zirger,2016-05-30 Immune responses within the brain are still scarcely explored Nerve tissue damage is accompanied by the activation of glial cells primarily microglia and astroglia and such activation is responsible for the release of cytokines and chemokines that maintain the local inflammatory response and actively recruit lymphocytes and monocytes to the damaged areas Theoretically these responses are designed to repair the brain damage However alterations or a chronic perpetuation of these responses may underlie a number of neuro pathologies It is thought that each inflammatory scenario within the brain have a specific biochemical footprint characterized by the release of determined cytokines chemokines and growing factors able to define particular immunological responses Alongside glial cells transform their cell body become larger and develop higher number of branches adopting an active morphological phenotype These changes are related with the search of interactions with other cells such as bystander resident cells of the brain parenchyma but also cells homing from the blood stream In this process microglia and astrocytes communicates with other cells by the formation of specific intercellular connections that are still poorly understood These interactions are complex and entail the arrangement of cytoskeletal compounds secretory and phagocytic domains In this particular crosstalk there is a two way communication in which glial cells and target cells come together establishing interfaces with specific information exchange This way glial cells orchestrate the particular response recruiting cellular subsets within the central nervous system and organizing the resolution of the brain damage In this Frontiers Research Topic we compile a selection of articles unfolding diverse aspects of glial derived inflammation focused on neurodegenerative diseases and other nervous system disorders with special emphasis on microglia macrophages as leading actors managing neuro immunity □□□□□□□□□□□□□□ □□□,□□□,□□□,□□□,2016-12-14 2017 2018 2016 Habitat III want need MaD Make a Difference Good Lab *Focus On: 100 Most Popular Expatriate Footballers in Spain* Wikipedia contributors,

China-Latin America and the Caribbean Thierry Kellner, Sophie Wintgens, 2021-05-03 This book assesses the political economic and geopolitical dynamics that China's presence has initiated throughout Latin America and the Caribbean between 2008 and 2020. Written by experts across three continents, contributions to this edited volume explore the bilateral relations that China has developed with almost all Latin American and Caribbean countries, charting both the benefits they have brought and the problems that these relations have created for local actors. The book analyses the emergence of new forms of dependence, considers issues such as the existence of a deindustrialization phenomenon throughout Latin America, and ultimately questions whether China and the United States are engaged in a zero-sum game in the region. It also investigates challenges that the densification of the web of China's relations and exchanges with Latin America and the Caribbean countries pose not only to the United States and European countries as traditional partners of these states but also to Latin American regionalism. Including an extensive set of case studies and local, regional, and global level analysis, *China, Latin America and the Caribbean* provides an empirically rich resource for students and scholars of Chinese foreign and economic policy, Latin America, the Caribbean, and wider geopolitics.
