**Come Together** Francesco Spampinato, 2014-12-02 The past twenty years have seen a new generation of artists working together in small groups and large collectives to explore new avenues of art design performance and commerce In Come Together author and visual artist Francesco Spampinato assembles an international roster of forty of today's most exciting and influential collectives from design studios like Project Projects and political performance artists The Yes Men to flash mob provocateurs Improv Everywhere and the multimedia artists Assume Vivid Astro Focus Alongside visual portfolios of their best work are in depth interviews addressing each group's unique motivations processes and objectives What emerges is a shared desire to turn viewers into producers and to use commercial mass media strategies to challenge prevailing social political and cultural power structures Come Together is an essential resource and inspiration for students art lovers and anyone interested in the cutting edge of visual culture

**The Architect as Worker** Peggy Deamer, 2015-07-30 Directly confronting the nature of contemporary architectural work this book is the first to address a void at the heart of architectural discourse and thinking For too long architects have avoided questioning how the central aspects of architectural practice professionalism profit technology design craft and building combine to characterize the work performed in the architectural office Nor has there been a deeper evaluation of the unspoken and historically determined myths that assign cultural symbolic and economic value to architectural labor The Architect as Worker presents a range of essays exploring the issues central to architectural labor These include questions about the nature of design work immaterial and creative labor and how it gets categorized spatialized and monetized within architecture the connection between parametrics and BIM and labor theories of architectural work architectural design as a cultural and economic condition entrepreneurialism and the possibility of ethical and rewarding architectural practice The book is a call to arms and its ultimate goal is to change the practice of architecture It will strike a chord with architects who will recognize the struggle of their profession with students trying to understand the connections between work value and creative pleasure and with academics and cultural theorists seeking to understand what grounds the discipline

**Making Another World Possible** Corina L. Apostol, Nato Thompson, 2019-10-11 Making Another World Possible offers a broad look at an array of socially engaged cultural practices that have become increasingly visible in the past decade across diverse fields such as visual art performance theater activism architecture urban planning pedagogy and ecology Part I of the book introduces the reader to the field of socially engaged art and cultural practice spanning the past ten years of dynamism and development Part II presents a visually striking summary of key events from 1945 to the present offering an expansive view of socially engaged art throughout history and Part III offers an overview of the current state of the field elucidating some of the key issues facing practitioners and communities Finally Part IV identifies ten global issues and in turn documents

100 key artistic projects from around the world to illustrate the various critical aesthetic and political modes in which artists cultural workers and communities are responding to these issues from their specific local contexts This is a much needed and timely archive that broadens and deepens the conversation on socially engaged art and culture It includes commissioned essays from noted critics practitioners and theorists in the field as well as key examples that allow insights into methodologies contextualize the conditions of sites and broaden the range of what constitutes an engaged culture Of interest to a wide range of readers from practitioners and scholars of performance to curators and historians Making Another World Possible offers both breadth and depth spanning history and individual works to offer a unique insight into the field of socially engaged art

*Social Practices and City Spaces* Kyriaki Tsoukala, 2023-11-07 This book examines the relationship between social practices and built space focusing on current cooperative participative and posthuman approaches to its production and management From a social cultural and ecological perspective it explores the modes of engagement of all factors in the constitutional processes of inhabited space Throughout this interdisciplinary collection built space is reconsidered in the light of other schools of thought such as philosophy anthropology social sciences and political theories and practices It covers new ground at conceptual epistemic and methodological levels focusing on inhabited space from within the framework of globalisation biopolitics cultural changes environmental crisis and new technologies Organised into three parts Parts 1 and 2 focus on the role of architects in the emergence of a new ethos for habitation as well as the modalities of the inclusion of differences in design discussing the importance of participation and narrative at a theoretical and practical level in architecture In the third part the chapters delve into questions regarding the intersection of design ecology and technoscience in a posthuman approach which might support the inclusion of differences in design and the emergence of a new environmental ethos Providing a stimulating landscape of arguments and challenges to new readings of architecture society and the environment this book will be of interest to researchers students and professionals of architecture urban planning anthropology and philosophy

**Thinking with Shakespeare** Julia Reinhard Lupton, 2019-10-04 What is a person What company do people keep with animals plants and things Such questions bearing fundamentally on the shared meaning of politics and life animate Shakespearean drama yet their urgency has often been obscured Julia Reinhard Lupton gently dislodges Shakespeare's plays from their historical confines to pursue their universal implications From Petruchio's animals and Kate's laundry to Hamlet's friends and Caliban's childhood Lupton restages thinking in Shakespeare as an embodied act of consent cure and care Thinking with Shakespeare encourages readers to ponder matters of shared concern with the playwright by their side Taking her cue from Hannah Arendt Lupton reads Shakespeare for fresh insights into everything from housekeeping and animal husbandry to biopower and political theology

*The Stack* Benjamin H. Bratton, 2016-02-26 A comprehensive political and design theory of planetary scale computation proposing that The Stack an accidental megastructure is both a technological apparatus and a model for a new geopolitical

architecture What has planetary scale computation done to our geopolitical realities It takes different forms at different scales from energy and mineral sourcing and subterranean cloud infrastructure to urban software and massive universal addressing systems from interfaces drawn by the augmentation of the hand and eye to users identified by self quantification and the arrival of legions of sensors algorithms and robots Together how do these distort and deform modern political geographies and produce new territories in their own image In *The Stack* Benjamin Bratton proposes that these different genres of computation smart grids cloud platforms mobile apps smart cities the Internet of Things automation can be seen not as so many species evolving on their own but as forming a coherent whole an accidental megastructure called *The Stack* that is both a computational apparatus and a new governing architecture We are inside *The Stack* and it is inside of us In an account that is both theoretical and technical drawing on political philosophy architectural theory and software studies Bratton explores six layers of *The Stack* Earth Cloud City Address Interface User Each is mapped on its own terms and understood as a component within the larger whole built from hard and soft systems intermingling not only computational forms but also social human and physical forces This model informed by the logic of the multilayered structure of protocol stacks in which network technologies operate within a modular and vertical order offers a comprehensive image of our emerging infrastructure and a platform for its ongoing reinvention *The Stack* is an interdisciplinary design brief for a new geopolitics that works with and for planetary scale computation Interweaving the continental urban and perceptual scales it shows how we can better build dwell within communicate with and govern our worlds [thestack.org](http://thestack.org) Once in a Lifetime Kevin McCloud, Sally Blundell, Roger Sutton, Rebecca MacFie, David Sheppard, Gary Franklin, 2014-08-31 New Zealand has to rebuild the majority of its second largest city after a devastating series of earthquakes a unique challenge for a developed country in the twenty first century The 2010 2011 earthquakes fundamentally disrupted the conventions by which the people of Christchurch lived The exhausting and exhilarating mix of distress uncertainty creativity opportunities divergent opinions and competing priorities generates an inevitable question how do we know if the right decisions are being made *Once in a Lifetime* City building after Disaster in Christchurch offers the first substantial critique of the Government's recovery plan presents alternative approaches to city building and archives a vital and extraordinary time It features photo and written essays from journalists economists designers academics politicians artists publicans and more *Once in a Lifetime* presents a range of national and international perspectives on city building and post disaster urban recovery *Hello World* Alice Rawsthorn, 2014-02-06 Our gadgets appliances and cars are sleeker and more elegant than they've ever been in our free time we trawl the internet for pictures of flawless minimalist interiors and even the great industrialist of our time Steve Jobs is admired more for his visual savvy than his technological inventiveness And yet with Instagram and Pinterest at our fingers and great design more available and more affordable than ever we've had no guidebook to this ever fascinating field Though it's an inescapable part of our lives there has been no single book that could in one fell swoop tell us everything we need to

know about design Enter Hello World The design critic for the International Herald Tribune Alice Rawsthorn has spent many years reckoning with the history of design and with its place in contemporary life and Hello World is the extraordinary summation of her research and reporting Rawsthorn takes us on a trip through design that ranges across continents and centuries and wherever she goes she discovers inspiring thrilling examples of resourcefulness inventiveness and sheer vision From the macabre symbol with which eighteenth century pirates terrorized their victims into surrender to one woman's quest for the best prosthetic legs to the evolution of the World Cup soccer ball Hello World describes how warlords scientists farmers hackers activists and professional designers have used the complex often elusive process of design to different ends throughout history Hailed as a rapid fire and illuminating ode to contemporary design Telegraph and an extremely readable tour of the subject Financial Times Hello World is a major work that radically broadens our understanding of what design can mean and explains how we can use it to make sense of our ever changing universe

**Speculative Everything** Anthony Dunne, Fiona Raby, 2013-12-06 How to use design as a tool to create not only things but ideas to speculate about possible futures Today designers often focus on making technology easy to use sexy and consumable In Speculative Everything Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas For them design is a means of speculating about how things could be to imagine possible futures This is not the usual sort of predicting or forecasting spotting trends and extrapolating these kinds of predictions have been proven wrong again and again Instead Dunne and Raby pose what if questions that are intended to open debate and discussion about the kind of future people want and do not want Speculative Everything offers a tour through an emerging cultural landscape of design ideas ideals and approaches Dunne and Raby cite examples from their own design and teaching and from other projects from fine art design architecture cinema and photography They also draw on futurology political theory the philosophy of technology and literary fiction They show us for example ideas for a solar kitchen restaurant a flypaper robotic clock a menstruation machine a cloud seeding truck a phantom limb sensation recorder and devices for food foraging that use the tools of synthetic biology Dunne and Raby contend that if we speculate more about everything reality will become more malleable The ideas freed by speculative design increase the odds of achieving desirable futures

**Art for Coexistence** Christine Ross, 2022-11-22 An exploration of how contemporary art reframes and humanizes migration calling for coexistence the recognition of the interdependence of beings In Art for Coexistence art historian Christine Ross examines contemporary art's response to migration showing that art invites us to abandon our preconceptions about the current crisis to unlearn them and to see migration more critically more disobediently We viewers in Europe and North America must come to see migration in terms of coexistence the interdependence of beings The artworks explored by Ross reveal contest rethink delink and relink more reciprocally the interdependencies shaping migration today connecting citizens on the move from some of the poorest countries and acknowledged citizens of some of the wealthiest countries and democracies worldwide These installations videos virtual reality works webcasts sculptures graffiti paintings photographs and a rescue boat by artists including Banksy Ai Weiwei Alejandro Gonzalez Iñurrutu Laura Waddington Tania Bruguera and others demonstrate art's power to mediate experiences of migration Ross argues that art invents a set of interconnected calls for more mutual forms of coexistence to historicize to become responsible to empathize and to story tell Art history Ross tells us must discard the legacy of imperialist museology which dissocializes dehistoricizes and depoliticizes art It must reinvent itself engaging with political philosophy postcolonial decolonial Black and Indigenous studies and critical refugee and migrant studies

**Judith Butler and Marxism** Elliot Mason, Valentina Moro, 2025-03-15 What would a Butlerian Marxism look like Marxist criticisms of Butler range from careful comparisons of forms to the total dismissal of an unpolitical merely cultural anarchy None of these criticisms however focuses on what seems to most closely unite these two projects the universal abolition of the universal While Marxist communism is focused on the abolition of value and property Butler is consistently concerned throughout their corpus with the abolition of the subject as the universal form of social relations an abolition staged by way of a relational ontology and ethics Their methodologies for achieving abolition however vary hugely Butler's sees the performativity of subjects and power as an opportunity for differential assembly Marxists are primarily concerned with the working class as a revolutionary vanguard that withdraws its labor from production Judith Butler and Marxism explores the possibility of a Butlerian Marxism understood as abolitionist performativity differential vulnerability and generalized practices of care The essays in this volume attempt to actualize the antagonistic persistence of social particulars pursuing the abolition of the domination and violence that pervade society with increasing brutality The three sections of this volume are

structured according to three pivotal political concepts in Butler's corpus: performativity, vulnerability and care. Each essay contributes to a possible mutual development of Butler's and Marxism's concern with assembly, interdependence and refusal, forming a revolutionary politics of care. This is the first book to fully study the contentious link between the vastly influential projects of Judith Butler and Marxism. Design Issues, 2014. **The Stack** Benjamin Bratton, 2025-03-01. The Stack cruza filosofía y software, urbanismo y tecnología ecológica y geopolítica. Es un estudio interdisciplinario y una herramienta para soñar y planificar cómo podemos construir mejor vivir, comunicarnos y gobernar nuestros mundos. Vivimos una época de cambio y aceleración vertiginosa marcada por la disrupción digital, la crisis climática y el desorden global general. En este contexto, la publicación de The Stack que cruza filosofía y software, urbanismo y tecnología ecológica y geopolítica no podrá ser más adecuada. Esta obra de Benjamin Bratton es un estudio interdisciplinario y una herramienta para soñar y planificar cómo podemos construir mejor vivir, comunicarnos y gobernar nuestros mundos. En palabras de Kim Stanley Robinson, autor de libros como Nueva York 2140 y El Ministerio del Futuro. Este asombroso libro que invita infinitamente a la reflexión es a la vez un mapeo cognitivo y una geometría proyectiva de las nuevas dimensiones de la realidad tecnológica en la que vivimos.

*Form, Funktion und Freiheit* Felix Kosok, 2021-03-15. Das Verhältnis von Design und Demokratie ist nicht nur eine Sache der effizienten, transparenten oder partizipativen Gestaltung politischer Institutionen und ihrer Prozesse. Design muss vielmehr in seiner Wechselwirkung mit der für die Demokratie konstitutiven Kultur der Freiheit bestimmt werden. Felix Kosok legt dar, wie sich die Verhandlung der politischen Dimension des Designs auf eine grundsätzliche Ebene verlagert. Dem Design selbst kommt eine politische Bedeutung zu, die von seiner ästhetischen Dimension nicht zu trennen ist. In der produktiven Freiheit zu den Zwecken zeigt sich die prinzipielle Gestaltbarkeit der Dinge, die von einer kritischen Theorie des Designs bewusst gehalten werden muss. Zdravím, světe Alice Rawsthornová, 2014-10-20. Design je jedním z nejmocnějších hybatel naší civilizace. Kdy se uvolní prostor pro potencionálnost volby silných a mnohdy dalších? Ale kdy se jeho moc znovu projeví v sledcích, mohou být matoucí poněkud příliš klidná, a někdy i nebezpečná. Nikdo z nás se inklinací k designu neubírá. Je natolik v údypu, to má své ovlivující na epocitě i jedním asto ani bychom si to uvědomili. Kniha Zdravím své té zkoumá vliv designu na civilizaci. Od strážidel, ho symbolů, jím pírati, v osmnáctém století, nutili své oběti, aby se vzdaly přesvědčení, že jedním z nejlepších možností pro záchranu naší civilizace je s ní se hrát. Mistrovství své své fotbalové popisuje, jak v průběhu historie, vojenských diktátů i v době zemědělské, hacke, i aktivistů a profesionálů. Design i využívali komplexně a astoťko postižitelný proces designu k nejrozšířenějšímu v dobách stojící před kolosálními změnami, probíhajícími s neuvěřitelnou rychlostí a intenzitou a v neslýchavém rozsahu od prohlubování se krize civilizace, ho prostě po obrovské pokroky ve vědě a technologii, vysvětluje kniha Zdravím své, jak nám design může pomoci se s nimi vyrovnat a využít je k našemu prospěchu. **El diseño como actitud** Alice Rawsthorn, 2021-02-01. En una época en la que nos vemos obligados a afrontar grandes y tumultuosos cambios en distintos frentes, desde el medioambiental hasta el tecnológico, Alice Rawsthorn explora cómo las nuevas generaciones de diseñadores se valen de las herramientas digitales para

perseguir sus objetivos sociales políticos o ecológicos La galardonada crítica de diseño y autora británica reñe en El diseño como actitud textos inéditos en los que aborda aspectos esenciales del diseño contemporáneo desde su rol en la interpretación de las nuevas tecnologías hasta su papel ante la crisis medioambiental pasando por su función en la expresión de nuestras identidades o el empoderamiento digital de la nueva ola de diseñadores en África Atendiendo a los grandes retos y transformaciones en el diseño contemporáneo este libro nos ofrece una lúcida visión sobre el impacto que este ejerce sobre nosotros ahora y en el futuro

Design como atitude Alice Rawsthorn, 2024-08-20 Quatro anos após seu lançamento original o livro mais vendido de Alice Rawsthorn republicado em uma edição expandida atualizada em resposta aos recentes desafios sociais políticos e ecológicos em todo o mundo Totalmente revisado pela autora o livro enriquecido por um novo capítulo sobre a resposta do design emergência climática explorando também o impacto da COVID 19 o aumento da desigualdade e novas abordagens da política de identidade no design Design como Atitude descreve a habilidade e engenhosidade com que designers estão lidando com desafios globais complexos e interseccionais em um momento extraordinariamente turbulento O interesse público pelo design está em ascensão medida que uma nova geração de designers utiliza tecnologias avançadas para perseguir objetivos humanitários e ecológicos em projetos cada vez mais ambiciosos almeja reinventar os objetos e espaços que usamos diariamente
