

Motorola IHF1000 Bluetooth Car Kit

Installation tutorial.

INTRODUCTION

The Motorola IHF1000 car kit is an innovative Bluetooth solution which will change the way you talk while you are in your car. Using your compatible Bluetooth "Hands-Free Profile" enabled mobile phone™ with the BLNC IHF1000 car kit, your in-vehicle communication experience is about to go to the next level. Just touch the blue button and the BLNC IHF1000 car kit will listen to your command and make calls for you. The system's brilliant sound quality with noise reduction and high output sound optimizes sound quality for all parties in conference. With the voice-operated control features and high performance audio, you are in the driver's seat.

The stylish, backlit controller with its chrome-brushed finish mounts within easy reach on the dashboard. The simple voice menu prompts and the controller make it easy to:

- pair compatible Bluetooth enabled mobile phones
- answer incoming calls
- mute and un-mute calls
- dial by name with up to 20 locally stored contacts
- dial by number
- dial by the mobile phone keypad
- request system help

Multiple Languages

the system also supports voice recognition in multiple languages including English (US and UK), French (EU), Spanish, Italian and German. So, regardless of who is doing the talking, or in what language, there is no need to "train" the system.

One Car: Multiple Drivers

Multiple people can enjoy the BLNC IHF1000 car kit. Up to four compatible Bluetooth enabled mobile phones can be paired to the system at a time, and easily switched between phones using the voice operated controls.

COMPATIBILITY

The BLNC IHF1000 car kit supports Bluetooth hands-free profile. Your phone must support this profile. For Motorola phones visit the customer support page at www.hellomoto.com/us/bluetoothcompatibility. For other phones, contact the manufacturer.

CAR KIT CONTENTS

Interface Cable

The Interface Cable connects the electronic module (see Fig 2) to the other system components. It connects the vehicle's power and ignition to the car kit and provides some **optional audio connections** when the car kit is used with the vehicle's radio.

Electronic Module

You can place the electronic module anywhere inside the vehicle to facilitate convenient connection between the interface cable and other system components.

Microphone

The microphone cable can be routed along the side of the vehicle, through the dash, and along the edge of the windshield. The microphone is placed best near the rearview mirror and aimed directly toward the user. This mic that may already exist in your vehicle is not compatible with this kit. You must use the microphone included with this kit.

User Interface Module

The User Interface Module (UIM) cable can be mounted in several ways to provide a safe and comfortable environment for use.

INSTALLATION

Disconnect Negative battery terminal.
