- 2 Disconnect the charger.

Note: Headset is not functional while charging.

②

- 2 Select **Motorola HS850**.
- 3 Select **OK** or **Yes** to confirm your headset with your phone.

Your phone and headset are now paired and ready to make and receive calls. To make a call:

- 1 With the boom open, place the headset over your ear.
- 2 On your phone, dial the number you want to call and press the **SEND** key.
- 3 If your phone and headset are successfully paired, you will hear ringing on the headset.

After you have successfully paired your phone and headset, you don't need to repeat these steps. For daily use, ensure that your headset is turned ON and that your phone's Bluetooth feature is ON.

To save battery power, turn OFF the headset when you don't use it for an extended time.

QUICK TIPS

To turn on the headset, open the headset boom. The indicator light blinks when the power is on.

To answer or end a call, press the **Call** button on the headset.

To adjust the volume, press the **Volume** buttons on the headset.

NOTE: To set volume button orientation for right or left ear, with the boom closed, first press and hold the **Call** button until the indicator light is lit. Then press the **Volume** button to be used to increase volume. The indicator light flashes to indicate success.

To turn off the headset, close the headset boom. The indicator light will stop flashing.

TROUBLESHOOTING

My phone doesn't find my headset.
Make sure the indicator light on your headset is on and steadily when your phone is searching for devices (see step 3).

My headset worked before but now it's not working.

Make sure your phone is on and the Bluetooth feature is turned on in your phone (see step 2). If the Bluetooth feature was turned off or was turned on only temporarily, you may need to repeat the Bluetooth feature (see step 2) and pair your phone and headset again (see step 3).
