

# MUSCULAR

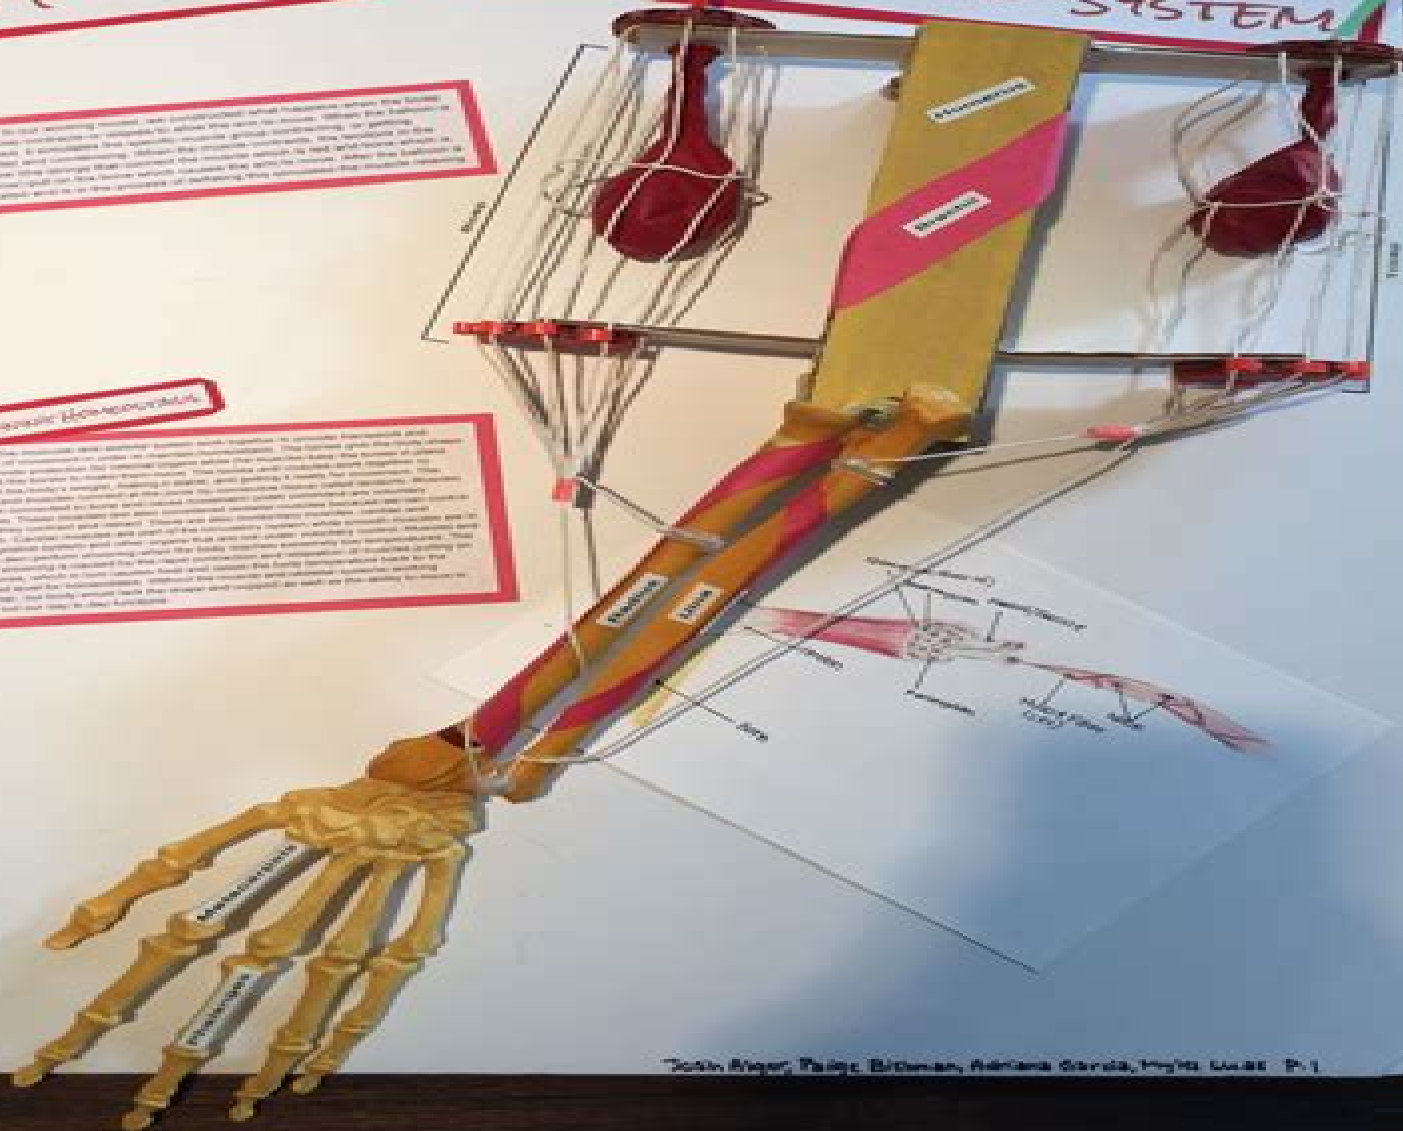

AND

# SKELETAL SYSTEM

In our learning model, we constructed what happens when the body is relaxed, moderate or vigorously active. When the body is relaxed, the muscles are in a state of low tension. When the body is moderately active, the muscles are in a state of moderate tension. When the body is vigorously active, the muscles are in a state of high tension. The model shows how the muscles are able to maintain a constant level of tension while the body is active.

## Myoelectric Response

The myoelectric response is the electrical activity of the muscles. It is the sum of the electrical activity of all the muscle fibers. The myoelectric response is used to measure the force of the muscles. The myoelectric response is also used to measure the fatigue of the muscles. The myoelectric response is a good indicator of the health of the muscles. The myoelectric response is also used to measure the recovery of the muscles after injury. The myoelectric response is a good indicator of the health of the muscles. The myoelectric response is also used to measure the recovery of the muscles after injury.
