finance predominantly for those who are poor but economically active and therefore their expansion is imperative for inclusive economic development. However, MFIs are faced with enormous challenges. The book discusses how partnering with a commercial bank can meet these challenges and the process of interaction contributing to the enhancement of institutional robustness of MFIs. Through two distinct case studies in Cambodia and Australia, the book discusses the motivations, objectives and operational dynamics of a partnership as well as the challenges, success factors and potential benefits from the increase in outreach and sustainability to the transference of knowledge and potential for capacity building. Similarly, the partnering banks benefit in line with the intended objectives: commercial or social, besides help embedding social consciousness and improving staff engagement. Concluding with elucidating the characteristics of a partnership model that can succeed across different global contexts, the book will interest a range of researchers and students across development, economics, banking, finance and sustainable development.

The Key Code and Advanced Handbook for the Governance and Supervision of Banks in Australia Francesco de Zwart, 2021-10-12. This Key Code and Handbook examines the corporate governance and accountability of Major Banks, their directors and executives, which were the central focus of bank Supervisor, Regulator and governmental activity and public scrutiny in 2018 and 2019. This book explores this responsibility focus by providing evidence from the Global Financial Crisis and beyond, with both APRA and ASIC investigating illegal conduct, misconduct and conduct which was below the level of community expectations. This book discusses how the Royal Commission into misconduct in the banking and financial services industry has already given rise to a detailed Final Report whose recommendations are still being put into effect. Further, this book uses evidence provided by the large number of Prudential Standards issued by APRA and investigations into the conduct of Major Banks by Regulators. This book explores governance variables over 1,700 in number and grouped into 159 key groupings or separate categories, which are all indexed to 28 governmental regulatory and supervisory reports and documents to create a governance code and commentary specifically tailored to Australian banks. Each governance variable is modelled on the Stage 1 Relational Approach contained in *Enhancing Firm Sustainability Through Governance*. Given the huge interest in the governance of banks, Parts 1 and 2 explaining the Relational Approach of Stage 1 were recently published in November 2018 and June 2019 in the *Australian Journal of Corporate Law*. This book is the largest reference book and handbook in publication worldwide containing the structures, mechanisms, processes and protocols, the checks and balances we call governance variables that deeply addresses and explains banking accountability and regulation in Australia.
