book is aimed at parents and caregivers of children between zero and six years of age who wish to foster their children's intelligence, independence, and love of learning in the home environment. Today's parents suffer from a severe shortage of free time. Work, family, and household obligations, caring for children, commuting, medical check-ups, it is not uncommon to feel suffocated by responsibilities. That is why for many the idea of adding early learning at home to this long list may seem like a utopia. However, as a working mother of two young children, I can attest that it is possible to achieve it even if you don't have a university degree in early childhood education. Anyone can do it. The purpose of this manual is to facilitate the task and lay the practical foundations of the Montessori Method at home, all without detours and without excessively long or abstract explanations. This book covers: Parenting A Montessori Toddler, Why The Montessori Method, Comparison Between Montessori Method And Classic Method, What Are The Principles Of The Montessori Method, Montessori Activities, How To Set Up The House Room By Room For The Montessori Method, Nature And Outdoor Spaces, Encouraging Curiosity and Creativity, And Much More. I strongly recommend that you try to find a moment each day to read the first part of the book from beginning to end, because that's where I briefly explain the basic concepts of Montessori pedagogy. If you do it, you will be able to take your educational activities to the next level. Find a little time each day and see for yourself. Ready to get started? Click Buy Now.
