Dept. of Agriculture. Library,1936 **Keynes and his Contemporaries** Atsushi Komine,2014-05-09 This book examines how the Cambridge School economists such as J M Keynes constructed revolutionary theories and advocated drastic policies based on their ideals for social organizations and their personal characteristics Although vast numbers of studies on Marshall Keynes and Marshallians have been published there have been very few studies on the Keynesian Revolution or Keynes s relevance to the modern world from archival and intellectual viewpoints which focus on Keynes as a member of the Cambridge School This book approaches Keynes from three directions person time and perspective The book provides a better understanding of how Keynes struggled with problems of his time and it also offers valuable lessons on how to survive fluctuating global capitalism today It focuses on eight key economists as a group in a public sphere rather than as a school a unified theoretical denominator and clarifies their visions and the widespread beliefs at the time by investigating their common motivations lifestyles values and habits **List of Publications** United States. Congressional Budget Office,2002 **Handbook of Experimental Economic Methodology** Guillaume R. Fréchette,Andrew Schotter,2015-01-02 The Handbook of Experimental Economic Methodology edited by Guillaume R Fr chette and Andrew Schotter aims to confront and debate the issues faced by the growing field of experimental economics For example as experimental work attempts to test theory it raises questions about the proper relationship between theory and experiments As experimental results are used to inform policy the utility of these results outside the lab is questioned and finally as experimental economics tries to integrate ideas from other disciplines like psychology and neuroscience the question of their proper place in the discipline of economics becomes less clear This book contains papers written by some of the most accomplished scholars working at the intersection of experimental behavioral and theoretical economics talking about methodology It is divided into four sections each of which features a set of papers and a set of comments on those papers The intention of the volume is to offer a place where ideas about methodology could be discussed and even argued Some of the papers are contentious a healthy sign of a dynamic discipline while others lay out a vision for how the authors think experimental economics should be pursued This exciting and illuminating collection of papers brings light to a topic at the core of experimental economics Researchers from a broad

range of fields will benefit from the exploration of these important questions **Monthly Catalog, United States Public Documents** United States.
