BOOK JACKET John Dewey and the Ethics of Historical Belief Curtis Hutt,2013-04-08 John Dewey and the Ethics of Historical Belief addresses the ethics of the representation of the past with a focus on the justification of historical belief within religious and critical historiographical traditions What makes a belief about the past justified What makes one historical belief preferable to another A great deal rides on how these questions are answered History textbook wars take place across the globe from California to India Cultural heritage protection is politicized and historical research is commonly deployed in support of partisan agendas This book explores not only John Dewey s relatively unknown contribution to this topic but also the leading alternatives to his approach Author Curtis Hutt focuses attention on the debate among those most influenced by Dewey s thought including Richard Rorty Richard Bernstein James Kloppenberg Wayne Proudfoot and Jeffrey Stout He also reviews the seminal work of Van Harvey on the relationship between historians and religious believers Dewey is cast as a vigorous opponent of those who argue that justified historical belief depends upon one s religious tradition Strongly resisted is the idea that historical belief can be justified simply on account of acculturation Instead Dewey s view

that beliefs are justified as a result of theorized historical inquiry is emphasized In order to prevent moral blindness the responsible historian and theologian alike are advised to attend to witnesses to the past that arise from outside of their own traditions **Keeping it Living** Douglas Deur,Nancy J. Turner,2005 The European explorers who first visited the Northwest Coast of North America assumed that the entire region was virtually untouched wilderness whose occupants used the land only minimally hunting and gathering shoots roots and berries that were peripheral to a diet and culture focused on salmon Colonizers who followed the explorers used these claims to justify the displacement of Native groups from their lands Scholars now understand however that Northwest Coast peoples were actively cultivating plants well before their first contact with Europeans This book is the first comprehensive overview of how Northwest Coast Native Americans managed the landscape and cared for the plant communities on which they depended Bringing together some of the world s most prominent specialists on Northwest Coast cultures Keeping It Living tells the story of traditional plant cultivation practices found from the Oregon coast to Southeast Alaska It explores tobacco gardens among the Haida and Tlingit managed camas plots among the Coast Salish of Puget Sound and the Strait of Georgia estuarine root gardens along the central coast of British Columbia wapato maintenance on the Columbia and Fraser Rivers and tended berry plots up and down the entire coast With contributions from ethnobotanists archaeologists anthropologists geographers ecologists and Native American scholars and elders Keeping It Living documents practices many unknown to European peoples that involve manipulating plants as well as their environments in ways that enhanced culturally preferred plants and plant communities It describes how indigenous peoples of this region used and cared for over 300 different species of plants from the lofty red cedar to diminutive plants of backwater bogs **Schumann** John C.
