Napoleon III and His Regime David Baguley, 2000-11-01 Referred to in his time as the Pretender and the sphinx of the Tuileries Louis Napol on Bonaparte the nephew of Emperor Napoleon I of France and himself ruler of the Second Empire 1852 1870 so managed the manufacture of his public image and the masking of his private self that he is ultimately unknowable to this day From the mysterious circumstances of his conception in 1807 to the strange events of his downfall in 1870 and death in 1873 he lived loved and reigned in an extraordinary aura of myth and fantasy under the shadow of his more famous uncle Taking a highly innovative approach to this intriguing historical figure David Baguley entertains sources in a m lange of media and forms pictures performances spectacles rituals music fiction poems plays

architecture fashion as well as Louis Napoleon's own writings to explore how the ruler was represented invented and interpreted by detractors and defenders alike The dynamic process by which the legend of Napoleon III was elaborately fabricated and then vigorously dismantled unfolds under Baguley's hand not chronologically but by generic categories reflecting the author's underlying conviction that history and literary depictions are not as incompatible as is often assumed Baguley examines works by among many others Victor Hugo Karl Marx Émile Zola Honoré Daumier Jacques Offenbach Gustave Flaubert and Elizabeth Barrett Browning that range from history and biography to romanticized versions of the Emperor's feats to parody caricature and satire With its conspiratorial origins its rising and dramatically falling action its schemes scandals and tragic denouement the Second Empire appears designed to inspire writers and artists Napoleon III Baguley observes could well have been the central character or temperament in a naturalist novel While most historians consider Louis Napoleon's coup d'état of December 1851 to be his boldest endeavor Baguley shows in this expansive and eloquent work that his most extravagant venture was to found a second Napoleonic empire and he illustrates not only the power of the name and the image but also the precariousness of the Emperor's reliance upon them For Napoleon III dissimulation was his natural state opportunist or utopian reformer or something in between he must remain one of history's most elusive and controversial figures ever resisting final assessment

Paris Reborn Stephane Kirkland, 2013-04-02 An engrossing account of Napoleon III Baron Haussmann and one of the greatest transformations of a major city in modern history Paris was transformed in an extraordinary period from 1848 to 1870 A must read for anyone who ever wondered how Paris the city universally admired as a standard of urban beauty became what it is

Sex Work, Text Work Jessica

Tanner, 2023-05-15 Though male French authors plotted prostitution to make their names mimicking the surveillance of municipal authorities the sex workers in their books manage to evade efforts to contain them While prostitutes in nineteenth century Paris were subject to municipal laws that policed their bodies and movements writers of the era enlisted them to stake their own claims on both the city and the novel as literary territory Sex Work Text Work Mapping Prostitution in the Nineteenth Century French Novel explores how prostitutes depicted by mile Zola Joris Karl Huysmans Edmond de Goncourt Adolphe Tabarant and Charles Louis Philippe write back confounding civil and literary efforts to contain them in space and in narrative In city regulated brothels brasseries femmes Haussmannian boulevards and the novel itself working class prostitutes served to reinforce the boundaries of social inclusion and exclusion And yet Jessica Tanner contends even the novels that most explicitly aligned with the disciplinary logic of regulated prostitution make space for a distinctly literary form of resistance these women elude or disrupt the mapping that would claim them as literary territory revealing their authors failure to secure their narratives as property Tanner pushes back against the critical tendency to attribute agency only to courtesans who became published authors and forwards a new framework for understanding the political work novels engage in as they circulate Observing that debates about the regulation of prostitution surfaced in tandem with racialized anxieties about the boundaries of the French nation Tanner ultimately expands that framework to the history of French colonialism and the politics of immigration in the current day This book shows that while sex workers have been recruited to mark the borders of civic and moral life prostitution can also make space for more inclusive forms of community both in the novel and in the world beyond its bounds

Dividing Paris Esther da Costa Meyer, 2022-02-15 *Dividing Paris* Urban Renewal and Social Inequality 1852 1870 offers a new look at the ambitious urban changes that transformed the city of Paris during the Second Empire when Paris became a template for urban renewal in many large cities in Europe North and South America Esther da Costa Meyer looks at the social and historical of context of these urban changes what Napoleon III his prefect Georges Eugene Haussman and their team of engineers planned as well as how the diverse and deeply stratified public responded to them Along with broad streets and boulevards intended to enable crowds and merchandise to circulate and also impede the chances of popular insurgency Haussman s project of urban renewal called for ample water supply sewerage and public parks and gardens These changes radically altered the old tightly knit weave of the medieval city serving the needs of the industrial bourgeoisie while forcing the urban poor to the outskirts *Dividing Paris* is the first architectural history of the city that takes into account the larger part of the urban territory annexed in 1860 a ring of settlements and villages which became increasingly class specific Instead of relating the story of Haussmanization as a top down administrative effort as Haussman s critics and admirers have both tended to do it draws on primary sources especially newspapers and memoirs to investigate the degree to which Parisians experiences of modernity were class and gender specific and to ask what strategies working class men and women in particular used to cope with and in some cases resist the changing world around them At

the same time da Costa Meyer resists the familiar narrative of Paris as capital of the 19th century that has endured at least since Walter Benjamin's famous essay as euro centric and misleading insofar as it fails to situate Paris's urban developments in a broader global context or to acknowledge the extent to which Haussmanization was itself implicated in the broader imperial project on which France was embarked at the time

[The Great Stink of Paris and the Nineteenth-Century Struggle Against Filth and Germs](#) David S. Barnes, 2006-06-06 Ultimately the attitudes of physicians and the French public were shaped by political struggles between republicans and the clergy by aggressive efforts to educate and civilize the peasantry and by long term shifts in the public's ability to tolerate the odor of bodily substances Donald Reid University of North Carolina at Chapel Hill American Historical Review

[Paris Between Empires](#) Philip Mansel, 2014-03-25 Paris between 1814 and 1852 was the capital of Europe a city of power and pleasure a magnet for people of all nationalities that exerted an influence far beyond the reaches of France Paris was the stage where the great conflicts of the age between nationalism and cosmopolitanism revolution and royalism socialism and capitalism atheism and Catholicism were fought out before the audience of Europe As Prince Metternich said When Paris sneezes Europe catches cold Not since imperial Rome has one city so dominated European life Paris Between Empires tells the story of this golden age from the entry of the allies into Paris on March 31 1814 after the defeat of Napoleon I to the proclamation of his nephew Louis Napoleon as Napoleon III in the Hotel de Ville on December 2 1852 During those years Paris the seat of a new parliamentary government was a truly cosmopolitan capital home to Rossini Heine and Princess Lieven as well as Berlioz Chateaubriand and Madame Recamier Its salons were crowded with artisans and aristocrats from across Europe attracted by the freedom from the political social and sexual restrictions that they endured at home This was a time too of political turbulence and dynastic intrigue of violence on the streets and women manipulating men and events from their salons In describing it Philip Mansel draws on the unpublished letters and diaries of some of the city's leading figures and of the foreigners who flocked there among them Lady Holland two British ambassadors Lords Stuart de Rothesay and Normanby and Charles de Flahaut lover of Napoleon's step daughter Queen Hortense This fascinating book shows that the European ideal was as alive in the nineteenth century as it is today

The Exile's Song Sally McKee, 2017-01-03 The extraordinary story of African American composer Edmond D d raised in antebellum New Orleans and his remarkable career in France In 1855 Edmond D d a free black composer from New Orleans emigrated to Paris There he trained with France's best classical musicians and went on to spend thirty six years in Bordeaux leading the city's most popular orchestras How did this African American raised in the biggest slave market in the United States come to compose ballets for one of the best theaters outside of Paris and gain recognition as one of Bordeaux's most popular orchestra leaders Beginning with his birth in antebellum New Orleans in 1827 and ending with his death in Paris in 1901 Sally McKee vividly recounts the life of this extraordinary man From the Crescent City to the City of Light and on to the raucous music halls of Bordeaux this intimate narrative history brings to life the lost world of exiles and travelers in

a rapidly modernizing world that threatened to leave the most vulnerable behind Le Grand Transit Moderne Larry Duffy, 2005-01-01 This book explores fictional responses to the changing transport and urban infrastructure of nineteenth century France arguing that networks of movement and an accompanying culture of networks which had become firmly established by the time of the Second Empire constitute a privileged subject for representation and that naturalist fiction in particular is that representation's privileged form Contextualizing the study's critical focus by way of a brief historical outline of the development of infrastructural networks in nineteenth century France and a delineation of the problematical parameters of French naturalism Duffy examines literary representations of new forms and conceptualisations of movement principally in works by Flaubert Zola and Maupassant Other authors discussed include the Goncourt brothers Huysmans Baudelaire and Claretie Literary texts are examined alongside a range of related scientific sociological and medical texts What emerges strikingly from consideration of these works and the discourses they often subversively incorporate is that movement central to nineteenth century industrial society's view of itself is frequently perceived and presented self deludingly in the idealised metaphorical terms of smoothly functioning systems of perpetual motion and that naturalist fiction by exploiting to their full potential the same metaphors in its narratives challenges this anti entropic vision **Housing the**

Poor of Paris, 1850-1902 Ann-Louise Shapiro, 1985 In the second half of the nineteenth century when Paris became a modern urban center the problem of working class housing emerged as a major issue In this study Ann Louise Shapiro examines the reform activities of philanthropists economist municipal authorities politicians and public hygienists as they together and separately responded to the questions of the worker's foyer Shapiro shows that the housing campaign touched all aspects of the social question providing a rare perspective on the political social and institutional readjustments required by a changing urban environment in nineteenth century France Shapiro's work will prove important reading for students and scholars of French history urban society and government and public health issues **The Painting of**

Modern Life T. J. Clark, 2015-02-17 The Paris of the 1860s and 1870s was supposedly a brand new city equipped with boulevards cafés parks and suburban pleasure grounds the birthplace of those habits of commerce and leisure that constitute modern life Questioning those who view Impressionism solely in terms of artistic technique T J Clark describes the painting of Manet Degas Seurat and others as an attempt to give form to that modernity and seek out its typical representatives be they bar maids boaters prostitutes sightseers or petits bourgeois lunching on the grass The central question of *The Painting of Modern Life* is this did modern painting as it came into being celebrate the consumer oriented culture of the Paris of Napoleon III or open it to critical scrutiny The revised edition of this classic book includes a new preface by the author

Documents on the Second French Empire, 1852-1870 Roger Price, 2015-07-20 In December 1851 Louis Napoleon Bonaparte seized power in a coup d'état believing he was destined to rule France and restore her to her former glory He was committed to the modernisation of France through significant infrastructure investment and urban renewal Although he felt

pressured to make concessions to liberal clerical and republican opposition from 1860 he remained determined to retain substantial power over foreign and defence policy This would prove to be his undoing In 1870 the Empire created by a military coup ended with a catastrophic military defeat dramatically changing the balance of power in Europe Documents on the Second French Empire presents students with a range of primary sources covering the political social and economic history of the era The documents in each chapter are contextualised by an introduction from the author and are grouped by theme making them easy to navigate and analyse A History of Modern France Jeremy D.
