examine shape and reflect the national self They rely on a labyrinthine narrative structure in which the sense of an enigma replaces the unidirectional path leading ineluctably to a designated end and solution Rosi's logical investigations are conducted by an omniscient eye and translated into a cinematic approach that embraces the details of material reality with the panoramic perspective of a dispassionate observer This book offers intertextual analyses within such fields as history politics literature and photography along with production information gleaned from Rosi's personal archives and interviews It examines Rosi's creative use of film as document and as spectacle It is also a study of the specific cinematic techniques that characterize Rosi's work and that visually compositionally express his vision of history and the elusive truth of past and present social and political realities
