Multisensory CALL for Under-Resourced Universities and Schools in Indonesia Lala Bumela Sudimantara, Luqman Baehaqi, Ania Lian, Andrew-Peter Lian, 2025-06-17 This book showcases the successful integration of multisensory learning and computer-assisted language learning (CALL) in under-resourced schools and universities in Indonesia, aimed at addressing the learning crisis as indicated by the sharp decline of English Proficiency Index and PISA in the last two decades. Multisensory learning provides a well-rounded learning experience that helps students to accelerate their learning. The authors describe how brain-informed learning tools such as the Verbotonal Approach, Reading for Emotions, and Aesthetics can facilitate rich and engaging learning practices and argue that adopting these practices can allow students to take a more active role in their learning, resulting in improved outcomes. This book will be of interest to readers in the Indonesian and other similar contexts, particularly those with an interest in language education, applied linguistics, CALL, and TESOL. The Christological Foundation for Contemporary Theological Education Joseph D. Ban, 1988

Taylor's 7th Teaching and Learning Conference 2014 Proceedings Siew Fun Tang, Loshinikarasi Logonnathan, 2015-06-01 These conference proceedings showcase a rich and practical exchange of approaches and vital evidence-based practices taking place around the world. They clarify the complex challenges involved in bringing about a holistic educational environment in schools and institutes of higher learning that fosters greater understanding and offer valuable insights on how to avoid the pitfalls that come with rolling out holistic approaches to education. To do so, the proceedings focus on the subthemes: Support and Development, Mobility and Diversity, and Networking and Collaboration in Holistic Education. **Education for Political Life** Iaan Reynolds, 2023-07-27 Through a detailed reading of Karl Mannheim's early explorations in the sociology of knowledge, this book argues for Mannheim's relevance for contemporary social and political theory. As a philosophical project of self-reflection, the early sociology of knowledge is distinctive for its blend of Marxist social theory and phenomenological investigation, making it a valuable resource for current philosophical attempts to relate thought to its social conditions. Furthermore, the struggle documented in the early days of this project against social critique's tendency to obscure its own perspective provides the best standard by which to assess its own limitations.
