International Conference on Communications, 1995 **Technical Program, Conference Record**, 1995 **The New Global Possible** Anil Dasgupta, 2025-09-09. A compelling and hopeful reminder that change is not only within our grasp; it is already happening. Jane Goodall: A must read for anyone looking for hope and optimism at a critical point in history. John Kerry: Global environmental leader. Anil Dasgupta takes an honest look at lagging climate action and maps out what can be done to rebuild hope for the future. In 2015, world leaders came together in Paris and signed an agreement to save the planet. Ten years later, we have made little progress on the ground and the climate crisis is worse than ever. We've mostly figured out what we need to do but not how to get it done and time is running out. In this groundbreaking new book, World Resources Institute President and CEO Anil Dasgupta explores how to orchestrate change at speed and scale. How do we get countries to keep working together on climate action when multilateralism is declining? How do we harness technological innovation to protect nature rather than destroy it? How do we dismantle entrenched power structures and rapidly transition to a clean, resilient economy? Based on conversations with more than one hundred leaders around the world, *The New Global Possible* weaves together stories of unusual partnerships, collaborative leadership, and lessons learned from failure. Mining the rich history of the climate movement, Dasgupta defines the narrow path to a hopeful future, one requiring all of our collective focus and determination and offers a radical new practice for orchestrating change for good. **5th Conference on**
