1.2 Refer to the case study on Saffron below and answer the question.

Case study
SAFFRON – SA poised to become big player in saffron market.

It is in place that could see South Africa becoming a significant player in the farming and export of saffron – by far the world's most expensive spice. For the first time, South African farmers are growing saffron, a crop that has been a staple of foreign farming for centuries.

Calvisia and Wilton in the Northern Cape have been growing saffron in local conditions for the last few years.

Dr. Mphahlele, director of Livestock Agriculture (LAC), says, as a partner of Saffron, they foresee a huge potential for saffron farming in South Africa. He believes it offers an ideal opportunity – not only for existing commercial farmers, but also for the development of small-scale emerging farmers – and, as such, will assist in addressing the country's high unemployment. The outgrowing (contract grower) system will uplift especially rural communities and give them a means to not only provide for their basic necessities, but also assist them to establish their own businesses with good growth possibilities.

In South Africa, saffron (sometimes referred to as "red gold") retails for as much as R250/g (or R250 000/kg). Adapted from <https://www2.co.za/saffron-afriky/> (Accessed 28 May 2021)
