**Coherence in Spoken and Written Discourse** Wolfram Bublitz, Uta Lenk, Eija Ventola, 1999-06-15 Until very recently coherence unlike cohesion was widely held to be a rather mystical notion However taking account of new trends representing a considerable shift in orientation this volume aims at helping relieve coherence of its mystifying aura The general bibliography which concludes the book bears witness to this intriguing development and the rapidly changing scene in coherence research Preceding this comprehensive up to date Bibliography on Coherence are 13 selected papers from the

1997 International Workshop on Coherence at the University of Augsburg Germany They share a number of theoretical and methodological assumptions and reflect a trend in text and discourse analysis to move away from reducing coherence to a product of formally represented cohesion and or semantically established connectivity Instead they start from a user and context oriented interpretive understanding and rely on authentic data throughout in relating micro linguistic to macro linguistic issues The first group of papers looks at the re creation of coherence in inter alia reported speech casual conversation argumentative writing news reports and conference contributions The second group describes the negotiation of coherence in oral examinations text summaries and other situations that require special efforts on the part of the recipient to overcome misunderstandings and other disturbances The third group discusses theoretical approaches to the description of coherence

Grammaticalization and the Rise of Configurationality in Indo-Aryan Uta Reinöhl,2017-04-14 This book examines historical changes in the grammar of the Indo Aryan languages from the period of their earliest attestations in Vedic Sanskrit around 1000 bc to contemporary Hindi Uta Reinöhl focuses specifically on the rise of configurational structure as a by product of the grammaticalization of postpositions while Vedic Sanskrit lacks function words that constrain nominal expressions into phrasal units one of the characteristics of a non configurational language New Indo Aryan languages have postpositions which organize nominal expressions into postpositional phrases The grammaticalization of postpositions and the concomitant syntactic changes are traced through the three millennia of Indo Aryan attested history with a focus on Vedic Sanskrit Middle Indic Pali and Apabhramsha Early New Indic Old Awadhi and finally Hindi Among the topics discussed

are the constructions in which the postpositions grammaticalize the origins of the postpositional template and the paradigmaticization of the various elements involved into a single functional class of postpositions The book outlines how it is semantic and pragmatic changes that induce changes on the expression side ultimately resulting in the establishment of phrasal and thus low level configurational syntax

**Fictionality, Factuality, and Reflexivity Across Discourses and Media** Erika Fülöp, 2021-06-08 Concerned with the nature of the medium and the borders between fact and fiction reflexivity was a ubiquitous feature of modernist and postmodernist literature and film While in the wake of the post postmodern return to the real cultural criticism has little time for discussions of reflexivity it remains a key topic in narratology as does fictionality The latter is commonly defined opposition to the real and the factual but remains conditioned by historical cultural discursive and medium related factors Reflexivity blurs the boundaries between fact and fiction however by giving fiction a factual edge or by questioning the limits of factuality in non fictional discourses Fictionality factuality and reflexivity thus constitute a complex triangle of concepts yet they are rarely considered together This volume fills this gap by exploring the intricacies of their interactions and interdependence in philosophy literature film and digital media providing insights into a broad range of their manifestations from the ancient times to today from East Asia through Europe to the Americas

Literacy and Globalization Uta Papen, 2006-09-27 Using literacy practices in the newly independent post apartheid Namibia as a lens through which to examine the effects of globalisation this broad case study looks at issues surrounding tourism state control and the new forces of consumerism By placing literacy at the centre of an investigation into social and cultural change as experienced by individuals Papen shows that in times of change reading and writing are always implicated in structures of power and inequality The book considers language practices that can exclude some members of Namibian society and also looks at the strategies used by local people to accommodate and even embrace the onward march of global English and the influx of foreign visitors practices and modes of commerce and interaction

Literacy is a perennial hot topic in Britain and other English speaking countries. Concerns about falling standards and a literacy crisis are frequently raised. In response governments initiate new policies and teaching guidelines. This book addresses the current policies, practices and media debates in England, the US, Scotland and Australia. Literacy and Education examines how literacy is taught to children in primary schools. The place of phonics in current policies and the arguments made for and against it. How teachers deliver phonics lessons and how children engage with the method. The range of literacy practices children engage with throughout the school day and how they contribute to literacy learning. The contributions a social and critical perspective on literacy can make to current debates regarding teaching strategies. A wide range of research conducted in the UK, North America, Australia and other countries. Bringing together policy, practice and public debate and drawing on the author's extensive research in a primary school, this essential new textbook provides questions and tasks for readers to engage with.
