Routledge Companion to Real Estate Investment Bryan D. MacGregor, Rainer Schulz, Richard K. Green, 2018-12-07
Real estate represents an increasingly significant global asset class and its distinctive characteristics must be understood by investors and researchers. The Routledge Companion to Real Estate Investment provides an authoritative overview of the real estate asset class. The Companion focuses on the current academic research and its relevance for practical applications. The book is divided into four parts, each containing specially written chapters by international experts in the relevant field. The contributors cover the institutional context for real estate investment, the main players in real estate investment, real estate appraisal and performance measurement, and real estate portfolios and risk management. This Companion provides a comprehensive reference for students, academics, and professionals studying, researching, and working in real estate investment, finance, and economics. *Advances in Pacific Basin Business, Economics and Finance* Cheng-Few Lee, Min-Teh Yu, 2025-05-05
Advances in Pacific Basin Business, Economics and Finance APBBEF is a peer-reviewed journal published by Emerald Publishing and is designed to focus on interdisciplinary research in finance, economics, and management among Pacific Rim countries. **Fraud** Edward J. Balleisen, 2018-12-18
A comprehensive history of fraud in America from the early nineteenth century to the subprime mortgage crisis. In America, fraud has always been a key feature of business, and the national worship of entrepreneurial freedom complicates the task of distinguishing salesmanship from deceit. In this sweeping narrative, Edward Balleisen traces the history of fraud in America and the evolving efforts to combat it from the age of P. T. Barnum through the eras of Charles Ponzi and Bernie Madoff. This unprecedented account describes the slow, piecemeal construction of modern institutions to protect consumers and investors from the Gilded Age through the New Deal and the Great Society. It concludes with the more recent era of deregulation, which has brought with it a spate of costly frauds, including corporate accounting scandals and the mortgage marketing debacle. By tracing how Americans have struggled to foster a vibrant economy without encouraging a corrosive level of cheating, *Fraud* reminds us that American capitalism rests on an uneasy foundation of social trust. **Law and Regulation of Mobile Payment Systems** Joy Malala, 2017-11-28
Over the last ten years, mobile payment systems have revolutionised banking in some countries in Africa. In Kenya, the introduction of M-Pesa, a new financial services model, has transformed the banking and financial services industry. Giving the unbanked majority access to the financial services market, it has attracted over 18 million subscribers, which is remarkable given that fewer than 4 million people in Kenya have bank accounts. This book addresses the legal and regulatory issues arising out of the introduction of M-Pesa in Kenya and its drive towards financial inclusion. It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools, institutional arrangements, and government decisional processes through the examination, as a whole, of its regulatory capacity. This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial

industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya Geofinance between Political and Financial Geographies Silvia Grandi,Christian Sellar,Juvaria Jafri,2019-12-27 This edited collection explores the boundaries between political and financial geographies focusing on the linkages between the changing strategies policies and institutions of the state It also investigates banks and other financial institutions affected by both state policies and a globalizing financial system and the financial resources available to firms as well as households In so doing the book highlights how an empirical focus on the semi periphery of the financial system may generate new perspectives on the entanglement between geo politics and finance **Current Debates in Social Sciences: Proceedings of CUDES 2018 September** Nihal Şirin Pınarcıoğlu,Ayşegül Kanbak,2018-11-30
