Rebuilding Empires Thomas Lee, 2014-12-09 Rebuilding Empires examines through retail giants Best Buy and Target how big box chains are constructing a new future by utilizing mobile devices social media and the Internet the same technologies that once pushed them to the brink of irrelevance This book features interviews with industry leaders and experts including Best Buy CEO Hubert Joly Target chief marketing officer Jeff Jones and several other key players in both companies Bricks and mortar retailing is not dead and Best Buy shows others how to capitalize on their own physical spaces Lee shows how showrooming is an asset rather than a liability how physical space and online space are complementary and how others can learn from Best Buy's innovations including the Geek Squad stores within stores and creating non traditional partnerships In a readable narrative format journalist Thomas Lee explores how the world's largest consumer electronics retailer is redefining what it truly means to be a Best Buy in the age of online retailing

**Managing Supply Chain Risk** ManMohan S. Sodhi, Christopher S. Tang, 2012-02-25 Supply Chain Risk Management is an issue that many companies face and yet few companies know how to deal with it in a systematic and pragmatic manner While avoiding and reducing supply chain risks are certainly preferable developing ways to restore and stabilize supply chain operations rapidly after a major

disruption is critical for managing global supply chains Sodhi and Tang present important concepts frameworks strategies and analyses that are essential for managing supply chain risks Not only does this book suggest some practical ways to work with different partners to manage the risks that are present in a global supply chain it creates a framework that would enable practitioners to engage researchers to work on this important area Thomas A Debrowski Executive Vice President Worldwide Operations Mattel Inc When a firm outsources its operations to external suppliers the firm is vulnerable to major and rare disruptions that can occur at any link in the global supply chain Because these disruptions rarely occur few firms take commensurable actions to identify assess mitigate and respond to various types of supply chain risks By introducing frameworks and concepts along with several case studies and a review of academic literature Sodhi and Tang treat this important subject with practical relevance and academic rigor This book will bring practitioners and researchers to develop effective and efficient ways to manage supply chain risks Marshall L Fisher UPS Professor Professor of Operations and Information Management and Co Director of Fishman Davidson Center for Service and Operations Management The Wharton School University of Pennsylvania This book ties observations in practice to methodologies and research The rich case examples motivated the approaches and methodologies used to mitigate risks and in the course of doing so Sodhi and Tang provided insights on existing and new research opportunities As a result this book is highly relevant to both practitioners and academics Also the book is also written with management lessons on how risks can be mitigated and how risks can be contained once disruptions have occurred As such it is also a book for management to gain insights and to develop management skills Hau L Lee Thoma Professor of Operations Information and Technology and Director of the Stanford Global Supply Chain Management Forum Graduate School of Business Stanford University As companies have extended their supply chains globally and as the face increasing resource issues they face a number of new risk challenges While there are various case studies written about supply chain risks this book gives a comprehensive treatment of the subject with clarity The concepts and frameworks developed by Sodhi and Tang in this book would create awareness of this important and yet not well understood subject and strategies described in this book would stimulate practitioners to develop a holistic approach for identifying assessing mitigating and responding to different types of supply chain risks Nick Wildgoose Global Supply Chain Proposition Manager Zurich Insurance

**Aerotropolis** John D. Kasarda, Greg Lindsay, 2011-03-01 This brilliant and eye opening look at the new phenomenon called the aerotropolis gives us a glimpse of the way we will live in the near future and the way we will do business too Not so long ago airports were built near cities and roads connected the one to the other This pattern the city in the center the airport on the periphery shaped life in the twentieth century from the central city to exurban sprawl Today the ubiquity of jet travel round the clock workdays overnight shipping and global business networks has turned the pattern inside out Soon the airport will be at the center and the city will be built around it the better to keep workers suppliers executives and goods in touch with the global market This is the aerotropolis a combination of giant

airport planned city shipping facility and business hub The aerotropolis approach to urban living is now reshaping life in Seoul and Amsterdam in China and India in Dallas and Washington D C The aerotropolis is the frontier of the next phase of globalization whether we like it or not John D Kasarda defined the term aerotropolis and he is now sought after worldwide as an adviser Working with Kasarda s ideas and research the gifted journalist Greg Lindsay gives us a vivid at times disquieting look at these instant cities in the making the challenges they present to our environment and our usual ways of life and the opportunities they offer to those who can exploit them creatively Aerotropolis is news from the near future news we urgently need if we are to understand the changing world and our place in it Oakland County Telephone Directories ,2007 *Ann Arbor Telephone Directories ,2005*
