

Essay Summary of Gender Identity

Gender Identity PSY/265 February 3, 2013 Gender Identity To understand gender identity you first need to know what gender identity is and what factors are involved in gender identity. "Gender identity is one's belief that one is a male or female." (Rathus, Nevid, & Fichner-Rathus, 2011, p.). Since we know what gender identity is, we need to have an understanding of what factors determine gender identity. The factors that play a role in gender identity are genetic factors, environmental situations, psychosocial factors, as well as sexual hormones.

The genetic factors have to do with the moment the child is conceived and the 23 male chromosomes and the 23 female chromosomes join together and create a zygote. At six weeks into the pregnancy our bodies already know what gender we will be and at seven weeks genetic code starts to show itself. When you are talking about the environmental situations in gender identity you are talking about the role that society plays on what is acceptable. Society in a whole divides male and female by their gender attributes.

The psychosocial factors of gender identity have to do with peer relationships as well as the parental relationships. The Sexual hormones have to do with the hormones in our bodies and their makeup. Masculine traits are being independent, being intelligent and competent of the world around you, the ability to be rational, assertive, analytical, and brave in situations as needed. Other traits that are considered masculine are strong, ambitious, active, competitive, insensitive, sexually aggressive, and attractive because of achievement.

Whereas feminine traits are to be submissive, dependent, unintelligent and incapable, emotional, receptive, intuitive, weak, timid, content, passive, cooperative, sensitive, sex object, and attractive because of physical appearance. Concerning my gender identity I feel that being born female played a big part in my gender identity. The other factor that played a big role in my gender identity would be psychosocial factors. Being raised in a family where a girl dressed like a girl, wearing dresses, having long hair, and long nails, as well as being prim and proper played a large role when it comes to my gender identity.

Now do not get me wrong I was raised by a single father and was taught to be independent and take care of myself, and stand on my own two feet but I have no problem letting a man take care of me in the sense of wanting to provide for me in the sense. I also believe that environmental situations played a big role in my gender identity in the sense of where I grew up and the way that society looks at males and females individually. While reading the differences in masculine and feminine traits I have to admit that I had never put thought into which traits attributed to myself.

It is said that a woman is to be dependent and that a man is to be independent. Personally I feel that I am very independent. My f

BEd Semester 1 Paper II - Sociological perspective of Education - Saral Prashnottar Saral Study Group

Working with Paper Carla Bittel, Elaine Leong, Christine von Oertzen, 2019-06-29 Working with Paper builds on a growing interest in the materials of science by exploring the gendered uses and meanings of paper tools and technologies considering how notions of gender impacted paper practices and in turn how paper may have structured knowledge about gender Through a series of dynamic investigations covering Europe and North America and spanning the early modern period to the twentieth century this volume breaks new ground by examining material histories of paper and the gendered worlds that made them Contributors explore diverse uses of paper from healing to phrenological analysis to model making to data processing which often occurred in highly gendered yet seemingly divergent spaces such as laboratories and kitchens court rooms and boutiques ladies chambers and artisanal workshops foundling houses and colonial hospitals and college gymnasiums and state office buildings Together they reveal how notions of masculinity and femininity became embedded in and expressed through the materials of daily life Working with Paper uncovers the intricate negotiations of power and difference underlying epistemic practices forging a material history of knowledge in which quotidian and scholarly practices are intimately linked
