Biology Laboratory Manual is designed for biology majors and can be used in conjunction with many different lower division  
biology textbooks The user friendly manual encourages students to think of lecture and lab as a cohesive unit by requiring  
them to use the information they are learning in lecture and the material presented in the manual including standard  
experiments to complete assignments Laboratory topics include prokaryotes protists land plants fungi animals digestion  
blood and circulation reproduction and the nervous system Because classification of organisms can vary among textbooks  
many formal taxa have been eliminated from this manual making it usable with a variety of lower division biology texts
