Evidence Matters ,2014 **The Rivalry Peril** Van Jackson,Michael Brenes,2025-01-28 How the U S policy of competition with China is detrimental to democracy peace and prosperity and how a saner approach is possible For close to a decade the U S government has been preoccupied with the threat of China fearing that the country will eat our lunch in the words of Joe Biden The United States has crafted its foreign and domestic policy to help constrain China s military power and economic growth Van Jackson and Michael Brenes argue that great power competition with China is misguided and vastly underestimates the costs and risks that geopolitical

rivalry poses to economic prosperity the quality of democracy and ultimately global stability This in depth assessment of the trade offs and pitfalls of protracted competition with China reveals how such a policy exacerbates inequality leads to xenophobia and increases the likelihood of violence around the world In addition it distracts from the priority of addressing such issues as climate change while at the same time undercutting democratic pluralism and sacrificing liberty in the name of prevailing against an enemy other Jackson and Brenes provide an informed and urgent critique of current U S foreign policy and a road map toward a saner more democratically accountable strategy of easing tension and achieving effective diplomacy

Harris, 2020-07-15 In the wake of the tragedy and destruction that came with Hurricane Katrina in 2005 public schools in New Orleans became part of an almost unthinkable experiment eliminating the traditional public education system and completely replacing it with charter schools and school choice Fifteen years later the results have been remarkable and the complex lessons learned should alter the way we think about American education New Orleans became the first US city ever to adopt a school system based on the principles of markets and economics When the state took over all of the city s public schools it turned them over to non profit charter school managers accountable under performance based contracts Students were no longer obligated to attend a specific school based upon their address allowing families to act like consumers and choose schools in any neighborhood The teacher union contract tenure and certification rules were eliminated giving schools autonomy and control to hire and fire as they pleased In Charter School City Douglas N Harris provides an inside look at how and why these reform decisions were made and offers many surprising findings from one of the most extensive and rigorous evaluations of a district school reform ever conducted Through close examination of the results Harris finds that this unprecedented experiment was a noteworthy success on almost every measurable student outcome But as Harris shows New Orleans was uniquely situated for these reforms to work well and that this market based reform still required some specific and active roles for government Letting free markets rule on their own without government involvement will not generate the kinds of changes their advocates suggest Combining the evidence from New Orleans with that from other cities Harris draws out the broader lessons of this unprecedented reform effort At a time when charter school debates are more based on ideology than data this book is a powerful evidence based and in depth look at how we can rethink the roles for governments markets and nonprofit organizations in education to ensure that America s schools fulfill their potential for all students **Resources in Education**, 1998
