Cross-curricular Approaches to Teaching and Learning Chris Rowley,Hilary Cooper,2009-09-14 What would the primary curriculum look like with humanities at its heart How can cross curricular work help children to learn more effectively With practical ideas on how to join up the primary curriculum this book uses history and geography to explore different contexts and strategies for making links between the full range of primary subjects so that learning can be more integrated and relevant to learners The authors demonstrate how these subjects can serve as the basis upon which values can be developed in the curriculum There are powerful case studies including examples of pupils work and talk and teachers reflections Additional materials to accompany the book can be found at [www.sagepub.co.uk/rowleyandcooper](http://www.sagepub.co.uk/rowleyandcooper) Written by a group of practising teachers and university tutors this book will be invaluable to primary teachers student teachers and all those involved in curriculum design Chris Rowley is Senior Lecturer in and Geographical and Environmental Education at the University of Cumbria UK Dr Hilary Cooper is Professor of History and Pedagogy at the University of Cumbria UK

*Educating Tomorrow's Engineers* Great Britain: Parliament: House of Commons: Science and Technology Committee,2013-02-08 In the UK we teach young people to become computer users and consumers rather than programmers and software engineers This is creating a chronic skills gap in ICT We need around 82 000 engineers and technicians just to deal with retirements up to 2016 and 830 000 SET professionals by 2020 On the plus side the Government's proposal to include computer science as a fourth science option to count towards the EBac is welcomed The Committee also welcomes the EBac's focus on attainment of mathematics and science GCSEs but is concerned that subjects such as Design and Technology D T might be marginalised A Technical Baccalaureate TechBac is being designed but if it is to be a success schools should be incentivised to focus on the TechBac by making it equivalent to the EBac Reforms to vocational education following the Wolf Review meant that Level 2 of the Engineering Diploma a qualification highly regarded would count as equivalent to one GCSE despite requiring curriculum time and effort equivalent to several GCSEs The Engineering Diploma however is currently being redesigned as four separate qualifications The Committee also expressed concerns over the Department for Education's DfE lack of clarity on its research budget and use of evidence in decision making The DfE needs to place greater focus on gathering evidence before changes to qualifications are made and must leave sufficient time for evidence to be gathered on the effectiveness of policies before introducing further change The possibility of gathering evidence from randomised controlled trials RCTs should be seriously considered

Teacher Development for Content-Based Language Education Susan Ballinger,Ruth Fielding,Diane J. Tedick,2024-09-10 This book fills a large gap in our understanding of how to prepare teachers for the challenging but increasingly popular task of integrating content and language instruction It brings together findings on content based teacher education from Africa Asia Australia Europe and

North America in order to inform researchers and teacher educators and enable them to play a critical role in the continued success of such programs It offers a solid grounding in theories and applications of content based approaches with empirical studies investigating teacher identity materials design use of cognitive discourse functions and best practices for teacher education Responding to the growing popularity of content based programs and the shortage of qualified teachers for these contexts this book promotes teacher researcher collaboration and provides support for trainee teachers in service teachers and course leaders
