The book highlights the personal and scientific struggles of Arthur Erich Haas 1884 1941 an Austrian Physicist from a wealthy Jewish middle class family whose remarkable accomplishments in a politically hostile but scientifically rewarding environment deserve greater recognition Haas was a fellow student of both Lise Meitner and Erwin Schrödinger and was also one of the last doctoral students of Ludwig Boltzmann Following Boltzmann's suicide Haas was forced to submit a more independent doctoral thesis in which he postulated new approaches in early quantum theory actually introducing the idea of the Bohr radius before Niels Bohr It is the lost story of a trailblazer in the fields of quantum mechanics and cosmology a herald of nuclear energy and applications of modern science This biography of Haas is based on new and previously unpublished family records and archived material from the Vienna Academy of Science and the University of Notre Dame which the author has collected over many years From his analysis of the letters documents and photos that rested for nearly a century in family attics and academic archives Michael Wiescher provides a unique and detailed insight into the life of a gifted Jewish physicist during the first half of the twentieth century It also sheds light on the scientific developments and thinking of the time It appeals not only to historians and physicists but also general readers All appreciate the record of Haas interactions with many of the key figures who helped to found modern physics The Horseman Bart Reitter,2011-02-22

Foreign Affairs, 1973 **Language and Gender in American Fiction** Elsa Nettels, 1997 Between January 1880 and December 1889 Harper s Monthly Magazine published 263 works of fiction half of these were written by women Judging by the popularity of contemporary mass circulation magazines women writers of the late nineteenth century enjoyed equal opportunity in the world of commercial publishing Yet although they wrote best sellers and won prizes the institutions that keep writers and their reputations alive chose not to sustain these writers and few are familiar today Sarah Orne Jewett Mary Wilkins Freeman Willa Cather Edith Wharton Elsa Nettels suggests that this lack of parity is not surprising in a culture that for centuries has used masculine to describe all things strong and dominant while feminine has signified weakness and inferiority In Victorian America the relation of literary style to gender became of increasing interest as women writers became ever more prominent In the influential magazines of the late nineteenth century Harper s Century Scribner s Atlantic Monthly Cosmopolitan and Ladies Home Journal writers directly or implicitly reflected society s views of the sexes and the proper roles of men and women In this intelligent and accessible book the author examines how William Dean Howells Henry James Edith Wharton and Willa Cather helped both to perpetuate and to subvert Victorian America s ideology of language and gender All had fruitful careers as novelists editors

and critics and she demonstrates that each was in a unique position to affect popular language and gender stereotypes To gauge their responses to the pervasive assumptions held by the magazines that published them Nettels traces how these writers defined masculine and feminine in their works how they characterized women's speech and language how they distinguished male and female discourse and where they invested authority in matters of usage Taking into account others engaged in the Victorian construction of gender such as grammarians linguists sociologists and writers on etiquette Nettels offers a compelling look at the cultural perpetuation of ideologies as well as fascinating scholarship on four authors who manipulated social mores to establish their place in American literature **Letters of Travel** Phillips Brooks, 1893
