

HIGH SCHOOL GRADUATION SPEECH

Good evening, fellow graduates, esteemed teachers, families, and friends. Today marks a significant milestone in our lives, the day we step out from the familiar halls of high school into a world brimming with possibilities and challenges.

I want to start by acknowledging something we all know too well – high school wasn't just about textbooks and exams; it was a rollercoaster of emotions, a journey of self-discovery, and, let's not forget, a test of our ability to function on minimal sleep! But look at us now, we made it!

We're a unique bunch. We've lived through unprecedented times, navigating the twists and turns of a global pandemic, and yet, here we are, ready to take on the world. We've learned that change is the only constant and adaptation is our superpower.

I'd like to take a moment to thank our teachers, who have been more than educators. They've been our guides, sometimes our therapists, and even our friends. They've shown resilience and dedication, ensuring that our learning never stopped, even when the world did.

To our families, thank you for your endless support and for believing in us, even when we doubted ourselves. Your love and encouragement have been our anchor in this stormy sea of adolescence.

Now, as we stand on the brink of our future, let's remember the friendships we've made, the lessons we've learned, and the memories we've created. High school may be ending, but our stories are just beginning.

As we go forth, let's carry with us the spirit of curiosity, the courage to dream big, and the determination to make those dreams a reality. Let's be the generation that leads with empathy, breaks the norms, and builds a future we can all be proud of.

So, here's to us! We're not just high school graduates; we're adventurers setting off on the most exciting journey of all – life. Congratulations to each and every one of you!

Breast Cancer Julianne S Oktay,J Dianne Garner,2013-12-16 I will always and forever feel I have a hole in my life where my mother once existed I think when you have to think about the fact you might have to take care of your parents someday and juggle kids at the same timeIt s a scary proposition We had open communication during and before the breast cancer But then after the breast cancer I was often afraid to bring things up in trying to protect Mom This insightful book tells the stories of women whose mothers had breast cancer It uses their own voices to express the common fears and expectations of daughters in the periods before and during their mothers illnesses involving genetic risks death and dying and changes in their relationships The case studies tables and figures and two appendices will benefit health professionals and counselors while the poignant narratives will help mothers and daughters better understand their experiences with breast cancer I was kind of surprised to be alive and free of cancer at age 42 when at this point my mother was crippled by metastases When I get to be 43the age at which my mother died or maybe when I get to 44it s like what do I do I have this life that I didn t expect to have Breast Cancer Daughters Tell Their Stories presents the results of a qualitative grounded theory study of breast cancer survivors providing in depth information about an aspect of breast cancer that has been previously overlooked The book examines the daughters

experiences through four phases the period prior to mother's illness the period during mother's illness and treatment the period following mother's death if mother dies and the long term impact From this study recommendations are compiled for providing or improving services for tomorrow's daughters The radical mastectomy left her scarred and disfigured below her nightgown It was bruised and nasty looking That was kind of scary I think that has terrified me since Sometimes I'll have pains in my left breast and that's what I visualize It's terrifying I'm not really obsessed about dying of cancer I'm more along the line of If this is going to happen to me and there's a chance it's going to I'm gonna survive I'm not going to die from it From an empathetic perspective this book reveals how many daughters react to and deal with their mothers' diagnoses depending on their age and family situation at the time of their mothers' illnesses It shows how daughters can gain a more accurate idea of their level of risk by providing educational materials and developing new strategies for communication It also helps breast cancer survivors see how their illnesses can shape their daughters' future outlook offering new inspiration for resolving and preventing family crises
