semantic answer similarity for evaluating question answering models - Mar 03 2023

web 2 days ago therefore there is a need for an evaluation metric that is based on semantics instead of pure string similarity in this short paper we present sas a cross encoder based metric for the estimation of semantic answer similarity and compare it to seven existing metrics

web given a question the ground truth answer is compared to the answer predicted by a model with regard to different similarity metrics currently the most prominent metrics for the evaluation of qa models are exact match em f1 score and top n accuracy all these three metrics rely on string based comparison
