The Languages of Politics/La politique et ses langages Volume 2 Marta Degani, Paolo Frassi, Maria Ivana Lorenzetti, 2016-12-14 The Languages of Politics La politique et ses langages provides a multifaceted view of major approaches to the study of political discourse from an interdisciplinary perspective To date most contributions to the analysis of political discourse have come from the fields of rhetoric critical discourse analysis cognitive linguistics pragmatics lexicology lexicography and more recently multimodal discourse analysis The papers in this volume build their investigations on these perspectives and provide new and diversified insights into this vast area of research Besides considering multiple approaches the book also adds to the current debate on the languages of politics by combining a range of theoretical and methodological considerations and by featuring contributions in both English and French **L'évolution Politique Et la Révolution** Gustave Molinari, 1884 **L'eau, enjeux politiques et théologiques, de Sumer à la Bible** Stéphanie Anthonioz, 2009-10-23 This book investigates a corpus of royal inscriptions and literary texts with special emphasis on those that are mythological and biblical stretching over several millennia from the early days of Sumer to the Biblical period in order to determine the ways in which the concept of water was used in particular the way it functions in the political and theological ideology of the time Three literary motifs are the object of a careful study the crossing of water the flood and the water of abundance Though their study shows diversity in evolution transmission and reception it appears that their function is common at the heart of the Mesopotamian political theology of royal mediation **Histoire de la Science Politique Dans Ses Rapports Avec la Morale** Paul Janet, 1887 Sur le Chemin du Socialisme Y. V. Andropov, 2013-10-22 Sur le Chemin du Socialisme *Partis politiques et processus de transition démocratique en Afrique noire* Omar Diop, 2006
