**Études philosophiques: La recherche de l'absolu** Honoré de Balzac, 1858 La comédie humaine : La recherche de l'absolu Honoré De Balzac, 2023-02-21 Il existe Douai dans la rue de Paris une maison dont la physionomie les dispositions intérieures et les détails ont plus que ceux d'aucun autre logis gard le caractère des vieilles constructions flamandes si naïvement appropriés aux mœurs patriarcales de ce bon pays mais avant de la décrire peut-être faut-il établir dans l'intérieur des crivains la nécessité de ces préparations didactiques contre les quelles protestent certaines personnes ignorantes et voraces qui voudraient des motions sans en subir les principes généraux la fleur sans la graine l'enfant sans la gestation L'Art serait-il donc tenu d'être plus fort que ne l'est la Nature Les vêtements de la vie humaine soit publique soit privée sont si intimement liés à l'architecture que la plupart des observateurs peuvent reconstruire les nations ou les individus dans toute la variété de leurs habitudes d'après les restes de leurs monuments publics ou par l'examen de leurs reliques domestiques L'archéologie est la nature sociale ce que l'anatomie compare est la nature organisée Une mosaïque révèle toute une société comme un squelette d'ichthyosaure sous-entend toute une création De part et d'autre tout se déduit tout s'enchaîne La cause fait deviner un effet comme chaque effet permet de remonter une cause Le savant ressuscite ainsi jusqu'aux verrues des vieux ges De là vient sans doute le prodigieux intérêt qu'inspire une description architecturale quand la fantaisie de l'crivain n'en dénature point les éléments chacun ne peut-il pas la rattacher au passé par des vives deductions et pour l'homme le passé ressemble singulièrement l'avenir lui raconter ce qui fut n'est-ce pas presque toujours lui dire ce qui sera Enfin il est rare que la peinture des lieux où la vie s'écoule ne rappelle chacun ou ses vices trahis ou ses espérances en fleur La comparaison entre un présent qui trompe les vœux secrets et l'avenir qui peut les réaliser est une source inépuisable de mélancolie ou de satisfactions douces

study of Francis Ponge's essays on contemporary artists L'Atelier contemporain attempts to broaden the popular view of the author as a poet of objects It explores Ponge's perception of art criticism as an inherently problematic genre and exposes the inhibitions surrounding the production of the essays The study demonstrates how Ponge's essays on artists parallel developments in his other works They are seen as instrumental in his movement towards open texts and a stress on the creative process itself as well as opportunities to reaffirm his philosophical and aesthetic stance *Moving Forward, Holding Fast*, 2023-11-20 An era of remarkable change and progress the nineteenth century was in every sense of the word dynamic In France writers and artists reflected the ambivalence of their compatriots to the relentlessly changing world around them The essays assembled here selected from the Twenty first annual Nineteenth Century French Studies Colloquium held at the University of Delaware in 1995 bear witness to this ambivalence They also testify to an impressive array of approaches to the theme of movement from the literal to the literary the social and socially conscious to the unconscious The three part collection Thrust and Drag Travel and Exile Uncontrolled Movement features essays by well known British Canadian French and American scholars on such authors as Balzac Baudelaire Flaubert Gautier Maupassant Stendhal and Zola and on such artists as Puvis de Chavannes Millet and Corot *Questions Set at the Examinations* College Entrance Examination Board, 1902 **Questions Set at the Examinations**, 1902 **Examination Questions in English, German, French [and] Spanish** College Entrance Examination Board, 1905 Catalogue of the Library of the Boston Athenaeum, 1874 Catalogue ... 1807-1871 Boston Mass, Athenaeum, lib, 1874 **Catalogue of the Library of the Boston Athenæum** Boston Athenaeum, 1874 **A catalogue of the books in the general subscription circulating library at Reading, first established by G. *Electromagnetism and the Metonymic Imagination* Kieran M. Murphy, 2020-04-02 How does the imagination work How can it lead to both reverie and scientific insight In this book Kieran M Murphy sheds new light on these perennial questions by showing how they have been closely tied to the history of electromagnetism The discovery in 1820 of a mysterious relationship between electricity and magnetism led not only to technological inventions such as the dynamo and telegraph which ushered in the electric age but also to a profound reconceptualization of nature and the role the imagination plays in it From the literary experiments of Edgar Allan Poe Honoré de Balzac Villiers de l'Isle Adam and André Breton to the creative leaps of Michael Faraday and Albert Einstein Murphy illuminates how electromagnetism legitimized imaginative modes of reasoning based on a more acute sense of interconnection and a renewed interest in how metonymic relations could reveal the order of things Murphy organizes his study around real and imagined electromagnetic devices ranging from Faraday's world changing induction experiment to new types of chains and automata in order to demonstrate how they provided a material foundation for rethinking the nature of difference and relation in physical and metaphysical explorations of the world human relationships language and binaries such as life and death This overlooked exchange between science and

literature brings a fresh perspective to the critical debates that shaped the nineteenth century Extensively researched and convincingly argued this pathbreaking book addresses a significant lacuna in modern literary criticism and deepens our understanding of both the history of literature and the history of scientific thinking
