A decade ago with the breakup of the Soviet Union and the start of market oriented reforms in many former socialist economies of Central and Eastern Europe the prospect of privatizing inefficient state owned companies figured prominently in both popular and academic writings As the headline event symbolizing change from central planning to capitalism privatization seemed to promise an end to the inefficiencies of central planning the key to freeing the resources and talents of this huge area and lifting its living standards to those of the industrial countries What broad lessons were learned from the experience of the past ten year Along with their successes prominent failures have also marked this recent history especially in Russia and in other countries of the former Soviet Union the overall task ahead thus remains vast if the original vision of greater freedom and higher living standards is to be realized

La privatisation David J. Donaldson, Dileep M. Wagle, 1995 IFC Lessons of Experience No 1F

This report reviews the experience of the International Finance Corporation IFC in its role as advisor and investor in privatization transactions during the past decade In pursuit of its mandate to further economic development by encouraging the growth of productive private enterprise in developing countries the IFC has naturally and increasingly been involved in supporting this movement The premise of the report is that privatization will always be partly based on political considerations including expected redistribution of wealth and the resulting winners and losers It discusses the IFC's experience from two perspectives as an advisor involved before the sale which illustrates how the IFC assists in the trade off between political and economic goals to conclude a deal and after privatization which discusses the resulting economic benefits The IFC asserts that its role in privatization is defined by the evolving frontiers of political commitment Within those frontiers it can help expand privatization possibilities by performing advisory assignments providing necessary investments and developing capital market institutions The IFC demonstrates that privatization strategies can assume many forms with few set prescriptions Other language editions English ISBN 0 8213 3447 6 Stock No 13447 Russian out of print ISBN 0 8213 3545 6 Stock No 13545 Spanish out of print ISBN 0 8213 3451 4 Stock No 13451
