Didi-Huberman, Shane B. Lillis, 2018-10-11 Aby Warburg's Mnemosyne Atlas 1925-1929 is a prescient work of mixed media assemblage made up of hundreds of images culled from antiquity to the Renaissance and arranged into startling juxtapositions Warburg's allusive atlas sought to illuminate the pains of his final years after he had suffered a breakdown and been institutionalized It continues to influence contemporary artists today including Gerhard Richter and Mark Dion In this illustrated exploration of Warburg and his great work Georges Didi-Huberman leaps from Mnemosyne Atlas into a set of musings on the relation between suffering and knowledge in Western thought and on the creative results of associative thinking Deploying writing that delights in dramatic jump cuts reminiscent of Warburg's idiosyncratic juxtapositions and drawing on a set of sources that ranges from ancient Babylon to Walter Benjamin Atlas or the Anxious Gay Science is rich in Didi-Huberman's trademark combination of élan and insight

Philosophie analytique et histoire de la philosophie

Jean-Michel Vienne, 1997 Quelle place donner à l'histoire de la philosophie Tradition analytique et tradition française ont eu longtemps des réponses tellement opposées qu'une tradition pouvait rejeter l'autre d'après ce seul critère ceux qui condamnaient la réduction de la philosophie à l'histoire des idées et dénonçaient l'oubli de la dimension intemporelle des argumentations valides étaient eux-mêmes critiqués pour la naïveté de leur silence sur la dimension historique de toute réflexion philosophique Les positions ont évolué de chaque côté un nouveau tournant philosophique l'existence d'un courant post-analytique la qualité du travail historique la percée de la philosophie analytique sur le continent ont changé les rapports Des spécialistes de chaque tradition dressent ici une carte de la situation et ce faisant définissent ce qu'ils entendent par philosopher

Revue roumaine de philosophie, 2004 Wittgenstein Reading Sascha Bru, Wolfgang Huemer, Daniel Steuer, 2013-10-29 Wittgenstein's thought is reflected in his reading and reception of other authors Wittgenstein Reading approaches the moment of literature as a vehicle of self-reflection for Wittgenstein What sounds on the surface like criticism of Shakespeare can equally be understood as a simple registration of Wittgenstein's own reaction hence a piece of self-diagnosis or self-analysis The book brings a representative sample of authors from Shakespeare Goethe or Dostoyevsky to some that have received far less attention in Wittgenstein scholarship like Kleist Lessing or Wilhelm Busch and Johann Nepomuk Nestroy Furthermore the volume offers means for the cultural contextualization of Wittgenstein's thoughts Unique to this book is its internal design The editors' introduction sets the scene with regards to both biography and theory while each of the subsequent chapters takes a quotation from Wittgenstein on a particular author as its point of departure for developing a more specific theme relating to the writer in question This format serves to avoid the well-trodden paths of discussions on the relationship between philosophy and literature allowing for unconventional observations to be made Furthermore the volume offers means for the cultural contextualization of Wittgenstein's thoughts

Presentations Danièle Moyal-Sharrock, 2007-05 This anthology focuses on the extraordinary contributions Wittgenstein made to several areas in the philosophy of psychology contributions that extend to psychology psychiatry sociology and anthropology To bring them a richly deserved attention from across the language barrier Dani le Moyal Sharrock has translated papers by eminent French Wittgensteinians They here join ranks with more familiar renowned specialists on Wittgenstein s philosophical psychology While revealing differences in approach and interests this coming together of some of the best minds on the subject discloses a surprising degree of consensus and gives us the clearest picture yet of Wittgenstein as a philosopher of psychology Tome 1 Philosophie du langage, Logique philosophique / Volume 1 Philosophy of language, Philosophical logic Guttorm Fløistad, G.H. Von Wright, 2012-12-06 The present publication is a continuation of two earlier series of chronicles Philosophy in the Mid Century Firenze 1958 59 and Contemporary Philosophy Firenze 1968 edited by Raymond KJibansky As with the earlier series the present chronicles purport to give a survey of significant trends in contemporary philosophi cal discussion The time space covered by the present series is approximately 1966 1978 The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic and the philosophy of language the convergence of interest though not necessarily of opinion of different traditions upon certain prob lems and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributory factors Surveys of the present kind are a valuable source of knowledge of this complexity and may as such be an assistance in renewing the understanding of one s own philosophical problems The surveys it is to be hoped may also help to strengthen the Socratic element of modem philosophy the dialogue or Kommu nikationsgemeinschaft So far four volumes have been prepared for the new series The present chronicles in the Philosophy of Language and Philosophi cal Logic Vol I are followed by chronicles in the Philosophy of Science Vol II and Philosophy of Action Vol *Les usages de l'usage* Béatrice Godart-Wendling, Sandra Laugier, 2022-03-01 L usage longtemps d pr ci constitue actuellement le socle des approches linguistiques les plus contemporaines Le parler ordinaire c est dire ce que nous dirions dans telle ou telle circonstance a traditionnellement t peu consid r par de nombreux th oriciens des langues Les usages de l usage questionne ce paradoxe en soulignant l incidence de la philosophie du langage dans la r habilitation r cente de l usage au sein des th ories linguistiques Appr hendant en diachronie cette probl matique d un point de vue linguistique et philosophique l ouvrage analyse l volution de la conception de l usage de l Antiquit grecque jusqu nos jours tant au niveau de sa d finition que des fonctions qui lui ont t attribu es Il traite galement des th ories contemporaines qui posent l usage au centre de leur dispositif et analyse les bouleversements th oriques qui en r sultent En retra ant ainsi la transformation d une notion sous valu e cet ouvrage montre comment elle s est r v l e tre l poque contemporaine un concept donnant lieu l apparition de nouveaux paradigmes

Lire Les recherches philosophiques Sandra Laugier, Christiane Chauviré, 2006 Les Recherches philosophiques sont le second grand ouvrage de Wittgenstein publié en 1953 deux ans après sa mort Avec ce livre polyphonique et dialogique il inaugure un style philosophique entièrement inédit en rupture y compris avec celui de son premier chef d'œuvre le Tractatus logico-philosophicus en discussion avec divers interlocuteurs philosophiques dont lui-même il interroge les tendances et tentations constitutives de nos habitudes de pensée révélant les usages communs de langage qui leur donnent seulement un sens Ainsi Wittgenstein modifie la nature même de l'activité philosophique Les contributions réunies ici veulent faire voir plus clairement ce tournant que constitue la seconde philosophie de Wittgenstein une attention nouvelle aux usages, détails et circonstances du langage mais aussi à l'arrière-plan anthropologique sur lequel se déploie cette grammaire et qui lui donne sa physionomie Elles suivent à travers une analyse continue du texte et de ses moments les différentes voix qui résonnent dans les Recherches y faisant apparaître une nouvelle conception de la subjectivité comme de la socialité du langage

on Freud is discussed and illustrated by facsimile reproductions of original letters hitherto unknown to Freudians and Spinozists alike These letters direct revealing light on some of Freud s attitudes Important parallels between East and West will also attract the student of Spinoza **Philosophie Des Geistes, Philosophie Der Psychologie** Roderick M.
