Congress Monthly Looking beyond the stereotype of Ozick's work as American Jewish literature Kauvar illuminates the intricacies of Ozick's texts and explores the dynamics of her creativity. Kauvar provides readings of all of Ozick's fiction from her first published novel *Trust* through *The Messiah of Stockholm*. **Lament in Jewish Thought** Ilit Ferber, Paula Schwebel, 2014-10-10. Lament, mourning and the transmissibility of a tradition in the aftermath of destruction are prominent themes in Jewish thought. The corpus of lament literature building upon and transforming the biblical Book of Lamentations provides a unique lens for thinking about the relationships between destruction and renewal, mourning and remembrance, loss and redemption, expression and the inexpressible. This anthology features four texts by Gershom Scholem on lament translated here for the first time into English. The volume also includes original essays by leading scholars which interpret Scholem's texts and situate them in relation to other Weimar era Jewish thinkers including Walter Benjamin, Franz Rosenzweig, Franz Kafka and Paul Celan who drew on the textual traditions of lament to respond to the destruction and upheavals of the early twentieth century. Also included are studies on the textual tradition of lament in Judaism from biblical rabbinic and medieval lamentations to contemporary Yemenite women's laments. This collection unified by its strong thematic focus on lament shows the fruitfulness of studying contemporary and modern texts alongside the traditional textual sources that informed them. **THOMAS MANN'S DOCTOR FAUSTUS: THE SOURCES AND STRUCTURE OF THE NOVEL**, 1969. *The Ritual Lament in Greek Tradition* Margaret Alexiou, 2002-04-03. Margaret Alexiou's *The Ritual Lament in Greek Tradition* first published in 1974 has long since been established as a classic in several fields. This is the only generic and diachronic study of learned and popular lament and its socio cultural contexts throughout Greek tradition in which a great diversity of sources are integrated to offer a comprehensive and penetrating synthesis. Its interdisciplinary orientation and broad scope have rendered *The Ritual Lament in Greek Tradition* an indispensable reference work for classicists, byzantinists, neohellenists, folklorists and anthropologists. Now a second edition revised by Dimitrios Yatromanolakis and Panagiotis Roilos has been made available. This new edition also includes a valuable up to date bibliography on ritual lament and death in Greek culture. *Musical Biographies* Michal Ben-Horin, 2016-04-25. Since the second half of the twentieth century various routes including history and literature are offered in dealing with the catastrophe of World War II and the Holocaust. Historiographies and novels are of course written with words; how can they bear witness to and reverberate with traumatic experience that escapes or resists language? In search for an alternative mode of expression and representation this volume focuses on postwar German and Austrian writers who made use of music in their exploration of the National Socialist past. Their works invoke however new questions: What happens when we cross the line between narration and documentation and between memory and a musical piece? How does identification and fascination affect our reading of the text? What kind of ethical issues do these testimonies raise? As this volume shows, reading these musical biographies is both troubling and

compelling since they fail to come to terms with the past In playing the haunting music that does not let us put the matter to rest they call into question not only the exclusion of personal stories by official narratives but also challenge writers and readers most intimate perspectives on an unmasterable past

**Transformative Communication Studies** Omar Swartz,2008-01-01 This interdisciplinary collection of essays charts intersections between communication cultural studies and a variety of emergent emancipatory and liberatory discourses Every essay attempts in one way or another to speak to the following questions What would a theory of liberation look like that is premised on a communication view of the world How would such a view expand and even redefine our understanding of liberation Finally how would such a view enlarge our understanding of what is collectively communally and organizationally possible In other words the chapters articulate what can be loosely considered a humanist theory of communication and praxis The goal is to move beyond discourses of liberation that are grounded in essentialist assumptions and to move the conversation toward an engaged criticism on cultural and social levels that facilitates and encourages progressive action This edited collection thus has as its goal a theory of human liberation grounded in communication as a resource for social and spiritual transformation The chapters comprise a mix of conceptual and applied studies that interrogate the communicative practices that naturalize our hierarchical world reifying and stultifying our moral and political imaginations As an antidote to this problem the contributors consider the importance of uncertainty and contingency in the development of human potential Rather than fearing uncertainty and contingency and allowing that fear to control us contributors argue that we should find within these conditions the source of our humanity and the strength to question and resist unjust social reifications When we do this we will rediscover the power of communication and regain an agency and control over our lives We then can start the difficult but humanizing process of constructing the world anew Case study exemplars of this construction thus are showcased

**The Novel in the Ancient World** Gareth L. Schmeling,2021-12-28 From classics and history to Jewish rabbinic narratives and the canonical and noncanonical gospels of earliest Christianity the relevance of studying the novel of the later classical periods of Greek and Rome is widely endorsed Ancient novels contain insights beyond literary theories and philosophical musings to new sources for understanding the popular culture of antiquity Some scholars in fact refer to ancient novels as alternative histories for they tell history implicitly rather than with the intentional biases of the historian The Novel in the Ancient World surveys the new approaches and insights to the ancient novel and wrestles with issues such as the development transformation and christianization of the novel Spirit inspired versus inspired by the Muses This publication has also been published in hardback please click here for details
