Range Rover Specification Guide James Taylor,2024-06-14 This book is designed to give guidance on the original ex factory specifications of the first generation Range Rovers built between 1970 and 1996 Sometimes known as Range Rover Classics

although the only ones properly so called were built after autumn 1994 these models laid the foundations for the following generations of Land Rover's world acclaimed Range Rover. Many of these early Range Rovers fell on hard times as they passed on to third fourth and subsequent owners. Many were butchered beyond recognition when converted into off road playthings. But now more than a quarter of a century since the last examples were built it is no surprise that enthusiasts have begun to restore examples to their original condition. This has created a demand for accurate information about what that original condition actually was. James Taylor has trawled painstakingly through original documents and examined original vehicles to put together all the known facts in one place. This guide will be essential reading for everyone with an interest in restoring or running one of these iconic models that became the foundation of today's Land Rover marque.
