Language Ideology And Point Of View:

Language, Ideology and Point of View Paul Simpson, 2003-09-02 This systematic introduction to the concept of point of view in language explores the ways in which point of view intersects with and is shaped by ideology It specifically focuses on the way in which speakers and writers linguistically encode their beliefs interests and biases in a wide range of media The book draws on an extensive array of linguistic theories and frameworks and each chapter includes a self contained introduction to a particular topic in linguistics allowing easy reference The author uses examples from a variety of literary and non literary text types such as narrative fiction advertisements and newspaper reports **Pragmatic Perspectives on Language and Linguistics Volume I** Iwona Witczak-Plisiecka, 2009-12-14 Speech Actions in Theory and Applied Studies the first of the two volumes of Pragmatic Perspectives on Language and Linguistics brings together twenty essays which critically examine linguistic action and explore ways in which it can be accounted for The articles presented in this collection are all focused on doing things with words but in most cases do not subscribe to speech act theory in the tradition of John L Austin and John R Searle The linking thread through the volume is not a theoretical commitment to one of the speech act theoretical models but the authors perspective on language as a means of action how linguistic expressions become effective in context and how this effectiveness can be explicated The papers represent different pragmatic approaches and varied levels of expertise in the research area among the authors there are eminent linguists and philosophers well established researchers and young beginners The texts include purely theoretical discussions case studies reports on research in experimental pragmatics contrastive and corpus studies and considerations of the pedagogical implications of pragmatic reflection on the nature of language Without purporting to cover all relevant topics this variety reflects the complex character of linguistic pragmatics and integrates studies which cross cut other research fields The book is divided in three parts The seven papers gathered in the first part of the volume Speech Action in Theory are concentrated on theoretical issues pertaining to speech as a type of action with emphasis both on linguistic forms e g fragments and theoretical commitments and particular theories explanatory power Part two Case Studies Experimental Pragmatics includes reports on research into irony processing in Polish and in English as a second language intercultural differences in interactions broadcast in the media power relations in doctor patient interaction and metaphors in media discourse at the time of crisis Part three Pragmatics Grammar and Language Pedagogy contains five essays which explore both more formal pragmatics through analyses of grammatical forms and the interface which the analysis of these forms share with context grounded research and the practical implications of pragmatic knowledge in language didactics This collection is supplemented by the essays gathered in volume two entitled Pragmatics of Semantically Restricted Domains **Discourse and Style** Dan Shen, 2024-12-02 This book examines overlaps differences and complementarities between narratology and stylistics and shows the consequences of this examination for the practical analysis of prose narrative Narratology identifies discourse as

one of its two main objects of study story being the other and stylistics of course designates style as its concern Too often however work in each of these fields proceeds without attention to developments in the other This book corrects that situation by looking beneath the superficial similarities between the discourse of narratology and the style of fictional stylistics The author shows that the two seemingly interchangeable terms actually refer to different textual elements For example both narratology and stylistics identify point of view as an important element of discourse and style respectively but each approach conceives of it differently and thus analyzes it differently This book argues that the different analyses are complementary and shows how they can be brought together This synthesis leads to richer conceptions of point of view as well as more comprehensive and precise analyses of its functions and effects in individual narratives For its theoretical and interpretive contributions this book will appeal to scholars and students in narrative studies literary stylistics and literary theory and criticism

Perspectives on Islamophobia Zouhir Gabsi, 2024-08-06 The Islamic positioning of Islamophobia is presented in this book Through Islamic or Muslim perspectives the book engages with various Islamic texts and discourses spoken and written emanating from preachers and scholars of Islam to discuss the points of convergence and divergence with the Western interpretation of the phenomenon The book aims to look at Islamophobia from a hitherto unexplored angle by first analyzing the points of convergence and divergence between the internal Muslim and external Western perspectives and then by providing new approaches to curbing Islamophobia through a holistic spiritual dimension of Islam and cultural memory The book contends that the bridges of understanding between the East and the West can only be built if some of Islam's theological concepts such as the place of reason in Islam are reinterpreted by considering the Islamic perspectives While the book acknowledges previous work on Islamophobia it contributes to a deeper understanding of Islamophobia in its internal and external manifestations by considering the theoretical frameworks of racism and xenophobia Readers interested in Islamic studies and anti racism narratives would find this book's eclectic approach and balanced perspective of the phenomenon informative and enlightening *Language Policy* Bingjun Yang, Rui Wang, 2016-11-18 Appendix 2 Non standard language in Lu Xun's works Zi and Ci Appendix 3 Old words gaining new meanings in cyber space Appendix 4 Old words restructuring semantic relations References Index *Language Ideologies* Bambi B.
