Code Choice in the Language Classroom Glenn S. Levine, 2011 Code Choice in the Language Classroom argues that the foreign language classroom is and should be regarded as a multilingual community of practice rather than as a perpetually deficient imitator of an exclusive second language environment From a sociocultural and ecological perspective Levine guides the reader through a theoretical empirical and pedagogical treatment of the important

roles of the first language and of code switching practices in the language classroom Intended for SLA researchers language teachers language program directors and graduate students of foreign languages and literatures the book develops a framework for thinking about all aspects of code choice in the language classroom and offers concrete proposals for designing and carrying out instruction in a multilingual classroom community of practice An extremely timely book on one of the most vexing issues in foreign language teaching how much codeswitching is acceptable or even desirable in the 21st century 12 classroom Through a sound theoretical framework and concrete pedagogical examples Glenn Levine develops an exciting innovative multilingual approach to curriculum design teaching and articulation that engages the students in the co construction of code choice conventions Claire Kramsch University of California at Berkeley USA
