**American Literary Theory and Criticism** H. Aram Veaser, 2020-11-27 The interviewees of this volume fall into three groups the main players who brought about the rise of theory Fish Gallop Spivak Bhabha a younger group of post theorists B rub Dimock Nealon Warren the anti critique theorists Felski and new order theorists Puchner Wolfe They discuss elemental questions such as trying to grasp what was logic and what was rhetoric trying to see down the road while fog and turmoil held visibility to arm s length and trying to pick legible meanings out of the cultural blanket of deafening noise Theorists were not only good thinkers but also pioneers who were seeking profound transformations     *Heidegger and the Place of Ethics* Michael Lewis, 2014-01-15 Despite Heidegger s identifying his own thought with ethics in the most original sense his understanding of ethics has been criticised both for its supposed ignorance of the role of the other human being and for its relation to politics This book contends that in fact it is Heidegger s own notion of being with his rethinking of intersubjectivity which demonstrates precisely what is wrong with his early work and demands that the place of ethics be rethought Heidegger and the Place of Ethics shows how this rethinking occurs in Heidegger s own laterwork In particular the crossing out of the earlier work in the turn to the later allows us to think being with as essential to a Heideggerian ethics and to rethink the relationship between ethics and politics which previously issued in Heidegger s engagement with Nazism This rethinking of ethics and politics in light of the originality of being with brings us before a hitherto unnoticed proximity between Heidegger s later work and the Lacanian political thought of Slavoj i ek among others it thereby opens up the

possibility of a politically progressive Heideggerianism and many unexpected encounters with thinkers generally considered to be separated from Heidegger by an abyss
