The FIRE Economy Jane Kelsey, 2015-07-13 The FIRE economy built on finance insurance and real estate is now the world's principal source of wealth creation Its rise has transformed our political economic and social landscapes supported by a neoliberal regime that celebrates markets profit and risk From rising inequality and ballooning household debt to a global financial crisis and fiscal austerity the neoliberal orthodoxy has brought instability and empowered the few Yet it remains remarkably resilient even resurgent in New Zealand and abroad In 1995

Jane Kelsey set out a groundbreaking account of the neoliberal revolution in *The New Zealand Experiment* Now she marshals an exceptional range of evidence to show how this transfer of wealth and power has been systematically embedded over three decades Today organisations and commentators once at the vanguard of neoliberal reform including the IMF and Financial Times journalist Martin Wolf are warning the current model is unsustainable A post neoliberal era beckons In *The FIRE Economy* Kelsey identifies the risks posed by FIRE and the barriers embedded neoliberalism presents to a progressive post neoliberal transformation and urges us to act This is a book New Zealand cannot afford to ignore

India and Bilateral Investment Treaties Prabhash Ranjan, 2019-04-24 As a consequence of being sued by more than 20 foreign investors India terminated close to 60 investment treaties and adopted a new Model Bilateral Investment Treaty BIT purportedly to balance investment protection with the host State's right to regulate This book is a critical study of India's approach towards BITs and traces their origin evolution and the current state of play It does so by locating them in India's economic policy in general and policy towards foreign investment in particular India's approach towards BITs and policy towards foreign investment were consistent with each other in the periods of economic nationalism 1947-1990 and economic liberalism 1991-2010 However post 2010 India's approach to BITs has become protectionist while India's foreign investment policy continues to be liberal To balance investment protection with the State's right to regulate India needs to evolve its BIT practice based on the twin framework of international rule of law and embedded liberalism
