The New Humanitarians Chris E. Stout Ph.D., 2008-11-30 From Braille Without Borders and Unite for Sight to Geekcorps and PeaceWorks humanitarian groups are working worldwide largely in undeveloped countries to better the lives of the residents Whether they are empowering people with schools for the blind prosthetic limbs the devices to understand and use technology or the information to work for civil peace the men and women of these agencies offer tremendous talent to their causes great dedication and sometimes even risk their lives to complete their missions Working in war or civil war zones humanitarians with nonprofits non governmental agencies and university connected centers and foundations have been injured kidnapped or killed Now terrorist events and war crimes are more and more often bringing these self sacrificing workers into the national spotlight by media headlines Their work is doubtless remarkable And so too are the stories of how they developed including the defining moments when their founders felt they could no longer stand by and do nothing In this set of books founders and top officials from humanitarian organizations established in the last 50 years spotlight how and why they began their organizations what their greatest

victories and challenges have been and how they run the organizations down to where they get their funding and how they spend it to grow the group and its efforts Led by Chris E Stout named Humanitarian of the Year by the American Psychological Association the contributors here come from across training disciplines including psychology medicine technology science politics social work and business Stout who has worked in Latin American terrorist zones in Vietnam and along the Amazon in Ecuador with Flying Doctors of America has chosen to feature a sample of humanitarian groups across four primary areas medicine environment education and social justice He also concentrates on what he calls guerilla humanitarians those who step into unsafe or unhealthy conditions despite the dangers There is also a concentration on those that have been very successful with on the ground guerilla innovations without a lot of bureaucracy or baloney Above all They are rebels with a cause whose actions speak louder than mere words Stout explains They have all felt a moral duty to serve as vectors of change In addition to being psychologically insightful these volumes hold invaluable practical information

, **Marking Evil** Amos Goldberg,Haim Hazan,2015-05-01 Talking about the Holocaust has provided an international language for ethics victimization political claims and constructions of collective identity As part of a worldwide vocabulary that language helps set the tenor of the era of globalization This volume addresses manifestations of Holocaust engendered global discourse by critically examining their function and inherent dilemmas and the ways in which Holocaust related matters still instigate public debate and academic deliberation It contends that the contradiction between the totalizing logic of globalization and the assumed uniqueness of the Holocaust generates continued intellectual and practical discontent

International Organizations and Development, 1945-1990 M. Frey,S. Kunkel,C. R. Unger,2014-08-19 This volume explores how international organizations became involved in the making of global development policy and looks at the driving forces and dynamics behind that process critically assessing the consequences their policies have had around the world

Human Rights in Crisis Alice Bullard,2017-05-15 This volume expands our understanding of the pursuit of human rights during the era of the War on Terror The threat to human rights both in the United States and among detainees in US governed detention facilities created a widely perceived crisis in human rights This text explores the broad and complicated ramifications of crisis by looking comparatively at societies in the present era and looking back at the historical and legal foundations of human rights Human Rights in Crisis contains an element of hope derived from a conviction that the pursuit of human rights happens on many fronts and in many ways around the globe that a retreat from human rights in the United States does not necessarily signal a global retreat The essays here include perspectives from History Anthropology and Legal Studies with a resulting interdisciplinary portrait of the complexities of pursuing human rights in wartime

Médecins Sans Frontières, Évolution d'un mouvement international associatif 1971-2011 Laurence Binet,Martin Saulnier,2019-02-01 De sa création en France en 1971 Médecins Sans Frontières MSF s'est voulu une organisation internationale et associative Internationale car ses fondateurs avaient pour projet de porter secours aux populations de

munies aux quatre coins du monde et qu'il aurait semblé étrange de ne pas intervenir qu'à partir de la France Associative car le statut d'association propose par le droit de tradition romano-civiliste en vigueur en France était en adéquation avec l'esprit de démocratie et de solidarité qui les portait. Pour autant, la transformation de l'organisation française initiale en un mouvement international associatif ne s'est pas déroulée de manière planifiée et régulière. Son histoire relève plutôt de l'enchaînement de compromis entre les visions des différents leaders du mouvement, entrecoupé d'épisodes de reconnaissance de situations de fait accompli et de leur intégration. Ces évolutions se sont structurées autour de questionnements relatifs à l'intérieur et aux formes de la croissance. Ces questionnements ont également porté sur la légitimité et la nature du leadership et de la représentation qui permettraient de faire grandir sans trahir une nouvelle forme d'action humanitaire dont se revendiquait MSF.

Cette étude raconte l'histoire du mouvement associatif de MSF, de la conception de l'organisation en 1971 à la laboration d'un système de gouvernance internationale adopté officiellement en 2011. La première partie de l'étude raconte les trois premières décennies de la période de construction et d'établissement du mouvement international associatif de Médecins Sans Frontières de 1971 à 2000. La seconde partie couvre la crise de croissance et les efforts du mouvement pour organiser sa gouvernance associative au début du 21^e siècle.

Idealism beyond Borders Eleanor Davey, 2015-12-17 This is a major new account of how modern humanitarian action was shaped by transformations in the French intellectual and political landscape from the 1950s to the 1980s. Eleanor Davey reveals how radical left third worldism was displaced by the sans frontières movement as the dominant way of approaching suffering in what was then called the third world. Third worldism regarded these regions as the motor for international revolution but revolutionary zeal disintegrated as a number of its regimes took on violent and dictatorial forms. Instead, the radical humanitarianism of the sans frontières movement pioneered by Médecins Sans Frontières emerged as an alternative model for international aid. Covering a period of major international upheavals and domestic change in France, Davey demonstrates the importance of memories of the Second World War in political activism and humanitarian action and underlines the powerful legacies of Cold War politics for international affairs since the fall of the Iron Curtain.

Les études de la Documentation française, 2012 *Le loup est revenu* Anne Vallaeys, 2013-10-02 La bergère humecte la cigarette qu'elle vient de rouler. C'est harassant, dit-elle d'avoir le loup comme adversaire. Canis lupus est revenu. Sur l'ensemble des massifs alpins des Pyrénées au Cantal jusqu'en Vosges, dix-neuf meutes sauvages peuplent vingt-neuf territoires loups. Mais l'expansion géographique du loup se mesure surtout en milliers d'ovins tombés sous ses crocs. Symbole d'une nature reconquise pour ses partisans cauchemar pour les gardiens de troupeaux, la réapparition du prédateur divise dans les alpages. La montagne serait-elle redevenue le lieu d'un combat ? Troupeaux et bergers devront-ils désertier, abandonner les estives au profit du sauvage voraceur de brebis ? Anne Vallaeys a parcouru les confins du Mercantour en Ubaye où depuis toujours vivent des générations de bergers et d'éleveurs. Sur la trace des loups, jour après jour, la voyageuse a gravi les vallons, contourné les falaises et les précipices. Pour comprendre, son récit branle les représentations convenues du prédateur sifflant.

The Routledge Companion to Humanitarian Action Roger Mac Ginty, Jenny H Peterson, 2015-03-24 The Companion on Humanitarian Action addresses the political ethical legal and practical issues which influence reactions to humanitarian crisis It does so by exploring the daily dilemmas faced by a range of actors including policy makers aid workers the private sector and the beneficiaries of aid and by challenging common perceptions regarding humanitarian crisis and the policies put in place to address these Through such explorations it provides practitioners and scholars with the knowledge needed to both understand and improve upon current forms of humanitarian action The Companion will be of use to those interested a range of humanitarian programmes ranging from emergency medical assistance military interventions managing refugee flows and the implementation of international humanitarian law As opposed to addressing specific programmes it will explore five themes seen as relevant to understanding and engaging in all modes of humanitarian action The first section explores varying interpretations of humanitarianism including critical historical and political economic explanations as well as more practice based explorations focused on notions needs assessments and evaluation Following this readers will be exposed to the latest debates on a range of humanitarian principles including neutrality and sovereignty before exploring the key issues faced by the main actors involved in humanitarian crisis from international NGOs to local community based organizations The final two sections address what are seen as key dilemmas in regards to humanitarian action and emerging trends in the humanitarian system including the increasing role of social media in responding to crises Whilst not a how to guide the Companion contains many practical insights for policy makers and aid workers whilst also offering analytical insights for students of humanitarian action Indeed throughout the book readers will come to the realization that understanding and improving humanitarian action simultaneously requires both active critical reflection and an acceptance of the urgency and timeliness of action that is required for humanitarian assistance to have an impact on vital human needs Exploring a sector that is far from homogenous both practitioners and scholars alike will find the contributions of this book offers them a deeper understanding of the motivations and mechanics of current interventions but also insight into current changes and progress occurring in the field of humanitarian practice

Tearfund and the Quest for Faith-Based Development Dena Freeman, 2019-08-19 This book gives an in depth analysis of the role of faith in the work of Tearfund a leading evangelical relief and development NGO that works in over 50 countries worldwide The study traces the changing ways that faith has shaped and influenced Tearfund's work over the organisation's 50 year history It shows how Tearfund has consciously grappled with the role of faith in its work and has invested considerable time and energy in developing an intentionally faith based approach to relief and development that in several ways is quite different to the approaches of secular relief and development NGOs The book charts the different perspectives and possibilities that were not taken and the internal discussions about theology development practices and humanitarian standards that took place as Tearfund worked out for itself what it meant to be a faith based relief and development organisation There is a growing academic literature about religion and development as well as increasing interest from development ministries of many Northern governments in understanding the role of religion in development and the specific challenges and benefits involved in working with faith based organisations However there are very few studies of actual faith based organisations and no book length detailed studies showing how such an organisation operates in practice and how it integrates its faith into its work In documenting the story of Tearfund the book provides important insights into the practice and ethos of faith based organisations which will be of interest to other FBOs and to researchers of religion and development
