Diagnosis, Conceptualization, and Treatment Planning for Adults Michel Hersen, Linda Krug Porzelius, 2001-08-01 In spite of the theoretical knowledge of diagnosis and assessment case conceptualization and treatment planning imparted by their course instructors most students are confused about the interrelationships of these processes in practice and are unable to apply what they have learned to the solution of thorny client problems This book is designed to bridge the gap between classroom and clinic In pragmatic fashion it walks beginners through the strategies needed to work with adults in outpatient settings and answers the questions they most frequently ask their clinical supervisors at the outset of their clinical apprenticeships Three chapters succinctly summarize the crucial general information and skills that must be reflected in a

clinician's approach to any client. Then following a standard format that facilitates understanding and comparison, experts describe specific disorders one by one and present their own illustrative cases to point the way to effective targeting.

Diagnosis, Conceptualization, and Treatment Planning for Adults will be an indispensable guide for mental health professionals in training who are facing their first assignments with clients.

Clinician's Handbook of Adult Behavioral Assessment Michel Hersen, 2011-04-28. Given the vast amount of research related to behavioral assessment, it is difficult for clinicians to keep abreast of new developments. In recent years, there have been advances in assessment, case conceptualization, treatment planning, treatment strategies for specific disorders, and considerations of new ethical and legal issues. Keeping track of advances requires monitoring diverse resources, limited to specific disorders, many of which are theoretical rather than practical, or that offer clinical advice without providing the evidence base for treatment recommendations. This handbook was created to fill this gap, summarizing critical information for adult behavioral assessment. The Clinician's Handbook of Adult

Behavioral Assessment provides a single source for understanding new developments in this field cutting across strategies techniques and disorders Assessment strategies are presented in context with the research behind those strategies along with discussions of clinical utility and how assessment and conceptualization fit in with treatment planning The volume is organized in three sections beginning with general issues followed by evaluations of specific disorders and problems and closing with special issues To ensure cross chapter consistency in the coverage of disorders these chapters are formatted to contain an introduction assessment strategies research basis clinical utility conceptualization and treatment planning a case study and summary Special issue coverage includes computerized assessment evaluating older adults behavioral neuropsychology ethical legal issues work related issues and value change in adults with acquired disabilities Suitable for beginning and established clinicians in practice this handbook will provide a ready reference toward effective adult behavioral assessment
