Counterintuitively anthropologist Shalini Shankar argues that far from being simply overstressed and overscheduled Gen Z spelling bee competitors are learning crucial twenty first century skills from their high powered lives displaying a sophisticated understanding of self promotion self direction and social mobility Drawing on original ethnographic research including interviews with participants judges and parents Shankar examines the outsize impact of immigrant parents and explains why Gen Z kids are on a path to success

Reading for Our Lives Maya Payne Smart,2022-08-02 An award winning journalist and literacy advocate provides a clear step by step guide to helping your child thrive as a reader and a learner When her child went off to school Maya Smart was shocked to discover that a good education in America is a long shot in ways that few parents fully appreciate Our current approach to literacy offers too little too late and attempting to play catch up when our kids get to kindergarten can no longer be our default strategy We have to start at the top The brain architecture for reading develops rapidly during infancy and early language experiences are critical to building it That means parents work as children s first teachers begins from day one too and we need deeper knowledge to play our positions Reading for Our Lives challenges the bath book bed mantra and the idea that reading aloud to our kids is enough to ensure school readiness Instead it gives parents easy immediate and accessible ways to nurture language and literacy development from the start Through personal stories historical accounts scholarly research and practical tips this book presents the life and death urgency of literacy investigates inequity in reading achievement and illuminates a path to a true transformative education for all

Hyper Education Pawan Dhingra,2021-09-07 An up close look at the education arms race of after school learning academic competitions and the perceived failure of even our best schools to educate children Beyond soccer leagues music camps and drama lessons today s youth are in an education arms race that begins in elementary school In Hyper Education Pawan Dhingra uncovers the growing world of high achievement education and the after school learning centers spelling bees and math competitions that it has spawned It is a world where immigrant families vie with other Americans to be at the head of the class putting in hours of studying and testing in order to gain a foothold in the supposed meritocracy of American public education A world where enrichment centers like Kumon have seen 194 percent growth since 2002 and target children as young as three Even families and teachers who avoid after school academics are getting swept up Drawing on over 100 in depth interviews with teachers tutors principals children and parents Dhingra delves into the why people participate in this phenomenon and examines how schools families and communities play their part Moving past Tiger Mom stereotypes he addresses why Asian American and white families practice what he calls hyper education and whether or not it makes sense By taking a behind the scenes look at the Scripps National Spelling Bee other national competitions and learning centers Dhingra shows why good schools good grades and good behavior are seen as not enough for high achieving students and their parents and why the education arms race is likely to continue to expand

The Best Boy in the United States Of America Dr. Ron Wolfson,2015-07-31 Powerful life lessons in a funny and moving portrait of family

community and spiritual discovery in America. Hilarious and heartfelt, Ron Wolfson's inspiring memoir is filled with stories of growing up in a warm family, encountering colorful characters like the merchants of Omaha and the famous Warren Buffett, navigating adolescence, and learning never to underestimate his mother. With easygoing Midwestern humor and profound poignancy, Ron's true stories of family and community in the United States of America will resonate with anyone seeking to shape stronger families, create compelling communities, and live their best life—a life of joy and laughter, meaning and purpose, and yes, blessings and kisses. I am the best boy in the United States of America. That's what my grandfather, my Zaydie, called me from the time I was a little child in Omaha, Nebraska. I know it's true because this is a true story. All my stories are true. Zaydie loved three things: his family, his business, and his adopted country, the United States of America. I never ever heard Zaydie say "the United States." It was always "da United States of America" in his thick Russian accent. For Louie Paperny, each one of his nine grandchildren was the best boy or the best girl in the United States of America. We believed him. I believed him. And in a certain way, I've lived the rest of my life trying to be that best boy. From Chapter 1.

Jewish Population and Identity Sergio DellaPergola, Uzi Rebhun, 2018-09-19. This book examines the fundamentals of Jewish demography and sociology around the world. It is not only concerned with documenting patterns of population change but also with an intriguing and ever-present issue like "Who is a Jew?" The latter transcends the limits of quantitative assessment and deeply delves into the nature, boundaries, and quality of group identification. A growing challenge is how to bridge between concepts related to ideals and theory and reality, reflecting field research. Divided into six sections, the book discusses historical demography, immigration and settlement, population dynamics, social stratification, and economy, family, and Jewish identity in the U.S. and Jewish identity in Israel. The volume represents the dynamic and diverse nature of the study of world and local Jewish populations. It shows how that field of study provides an important contribution to the broader and now rapidly expanding study of religious and ethnic groups. Scholars in disciplines such as history, geography, sociology, economics, political science, and especially demography, follow and analyze the social and cultural patterns of Jews in different places around the globe at various times and from complementary perspectives. They make use of historical sources that have recently become accessible, utilize new censuses and surveys, and adopt advanced analytical methods. While some of their observations attest to consistency in the Jews' demographic and identificational patterns, others evolve and ramify in new directions that reflect general processes in the areas and societies that Jews inhabit: internal changes within Jewish communities and intergenerational trends in personal preferences of religious and ethnic orientations. This volume brings together contributions from scholars around the world and presents new and updated research and insights.
