Industry (Routledge Revivals) Colin Barlow, Sisira Jayasuriya, C Suan Tan, 2014-02-04 Despite the fact that Rubber is one of the world's major commodities surprisingly little has been written about the subject First published in 1994 The World Rubber Industry seeks to redress this deficiency It presents information in a clear and accessible manner with numerous tables and illustrations and an extensive glossary This is a comprehensive and definitive analysis of one of the world's major and most essential commodities Prospects for the Myanmar rubber sector: An analysis of the viability of smallholder production in Mon State Van Asselt, Joanna, Htoo, Kyan, Dorosh, Paul A., 2017-02-23

As a result of recent political reforms Myanmar has the opportunity to enact major policy changes to reinvigorate its agriculture sector In this context Myanmar's rubber sector has the potential to become an even greater source of export earnings and rural household incomes but there are major challenges related to low rubber productivity and poor rubber quality Using data from the Mon State Rural Household Survey MSRHS conducted from May to June 2015 as well as qualitative data collected from rubber producer focus groups and other interviews with rubber producers traders and processors this paper describes the cost structure of rubber production in Mon State We then estimate smallholder production costs and the profitability of smallholder rubber production under various alternative yield and price scenarios The results suggest that if the weaknesses hindering the profitability of the rubber sector are not addressed the rubber sector will likely stagnate Moreover in the absence of a major increase in world prices substantially above the 2000-2016 average new rubber investments will not be profitable without major improvements in yield and quality Further increasing only yields or only quality or only improving the institutional environment will not result in positive returns on investment for smallholders reforms are needed in all three areas If these weaknesses are addressed however Myanmar's new investments will be profitable and Myanmar could become an important rubber producer and exporter on the world stage **The Natural Rubber Market** Kees Burger, Hidde P. Smit, 1997
