

Student Exploration: Growing Plants

Answer Key

Vocabulary: compost, fertilizer, mass, seed, soil, variable

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

[Note: The purpose of these questions is to activate prior knowledge and get students thinking. Students are not expected to know the answers to the pre-Gizmo questions.]

1. What do you think plants need to grow and stay healthy?

Seeds need water, light, and nutrients (usually from soil) to grow into healthy plants.

2. **Soil** is a combination of tiny rock fragments and decayed plant materials. How do you think soil helps a plant?

Soil provides nutrients and water to a plant. In addition, it allows the roots to anchor the plant.

Gizmo Warm-up: Grow the Biggest Plant!

1. In the Gizmo set up the three pots however you like:
 - Choose a **seed** to drag into each pot.
 - Click on the light bulbs to turn them on or off.
 - Drag the **Water** slider up or down to set the amount of water each plant will get.
 - If you like, drag **fertilizer** or **compost** into a pot.
 - When the pots are ready, click **Play** (▶) and wait for the simulation to end.

2. How tall was your tallest plant? *Answers will vary.*

3. Click **Reset** (↺) and **Clear pots**. Run a few more trials to grow the tallest plants you can. What conditions led to the tallest plant?

Answers will vary.

[The tallest possible plant in the Gizmo is an 80-cm bean plant. This can occur with two lights on, 80 mL of water per day added, and the soil fertilized. There is some randomness in the model, however, so these ideal conditions will only rarely produce an 80-cm plant.]

Explore Learning Growing Plants Answer

Amanda Thomas (Math professor)

Explore Learning Growing Plants Answer:

Distance Learning for Elementary STEM Amanda Thomas (Math professor), 2020 This practical guide outlines a vision for online and distance STEM learning at the elementary level with creative activities based on eight STEM themes Online and distance learning may sound fairly straightforward Instead of learning in a classroom setting students learn at home with the assistance of online resources But classroom learning does not always translate easily to online settings particularly at the elementary level where children should be actively engaging in activities exploration and discussion For STEM subjects integration across subjects settings and play based versus traditional learning present opportunities for young learners to engage in age appropriate online and distance learning This book features eight creative integrated STEM lessons including ideas for designing a zoo learning to garden exploring the night sky and more Each lesson offers online traditional and hands on components with connections to the ISTE Standards and STEM standards across elementary grades Concluding with a model for designing online and distance STEM learning for elementary aged children this book will support teachers and parents in designing the types of resources and learning experiences they need for elementary students distance learning
