Take a moment to picture the four seasons. Leaves falling in autumn, snow blanketing the ground in winter, waves crashing during the summer, and flowers blooming in the spring. There are so many wonderful changes with each season. **My favorite season is autumn. I enjoy the leaves and pumpkins during autumn. Put on a sweater as we spend time exploring autumn.**

To begin with, autumn leaves are beautiful. My grandmother has two huge trees in her front yard. Every autumn the leaves turn gorgeous shades of yellow, orange, and brown. **Gently,** leaves fall from the trees scattering upon the grass underneath. We rake the leaves into a huge pile. When the pile is stacked high, we get a running start and pounce into the leaves. The leaves fly into the air like a huge explosion. Also, my dad takes us for a ride in the country. The roads are lined with hundreds of trees. It is amazing to see the autumn colors filling the sky. **The leaves during autumn are breathtaking.**

Next, pumpkins are popular vegetables during autumn. Each year our city has an enormous pumpkin patch. My parents and I visit the patch to choose our pumpkin. **Diligently,** I look hard to find the biggest, brightest pumpkin in the patch. It is awesome to see hundreds of pumpkins scattered on the ground. My mom always gets an extra pumpkin to make a pie. When we arrive at home, my dad and I begin carving the pumpkin. We draw a funny looking face with a marker before cutting it out. My favorite part is pulling out the guts. They are so slimy that my hands get sticky. **Pumpkins are a wonderful part of autumn.**

In short, autumn is the season I enjoy the most. I like the leaves and pumpkins. Autumn will be here very soon!

Expository Text Grade 5:

, *Storytown Ride the Edge Theme 3 Grade 5* Harcourt School Publishers, Isabel L. Beck, 2005 *Upper Elementary Reading Lessons* Marilyn J. Chambliss, Linda Valli, 2011-07-16 Engaging students in worthwhile learning requires more than a knowledge of underlying principles of good teaching. It demands considerable practice as well as images of what good teaching in particular situations and for particular purposes might look like. This volume provides these images. These cases were written from authentic unrehearsed lessons taught by upper elementary classroom teachers to diverse groups of real students in intact classrooms. Each lesson contains elements of sound instructional practice from which both preservice and in-service teachers can benefit. Cases are not meant to be ideal but rather to evoke ways of seeing and thinking about good classroom instruction for all learners. Accompanied by analytic commentaries from experts representing a particular perspective such as special education and ESOL, these unrehearsed cases are written with the understanding that teaching is complex and multi-dimensional. The cases are drawn from a four-year study of 4th and 5th grade mathematics instruction of culturally diverse classrooms with relatively high rates of students from low-income families. **Talking Texts** Rosalind Horowitz, 2017-09-25 This volume examines how oral and written language function in school learning and how oral texts can be successfully interconnected to the written texts that are used on a daily basis in schools. Rather than argue for the prominence of one over the other, the goal is to help the reader gain a rich understanding of how both might work together to create a new discourse that ultimately creates new knowledge. **Talking Texts** Provides historical background for the study of talk and text. Presents examples of children's and adolescents' natural conversations as analyzed by linguists. Addresses talk as it interfaces with domains of knowledge taught in schools to show how talk is related to and may be influenced by the structure, language, and activities of a specific discipline. Bringing together seminal lines of research to create a cohesive picture of discourse issues germane to classrooms and other learning settings, this volume is an essential resource for researchers, graduate students, classroom teachers, and curriculum specialists across the fields of discourse studies, literacy, and English education, composition studies, language development, sociolinguistics, and applied linguistics. International Perspectives on Writing Curricula and Development Jill Jeffery, Judy M. Parr, 2021-05-27 This book contributes to the innovation of writing education and research globally by providing crucial insights into how the structures and aims of literacy curricula vary internationally. It examines how nine education systems across five continents represent good writing in curricula that shape students' experiences learning to write in school. The book presents curricular analyses aimed at providing insight into how writing development can be better supported through innovative policy and research. The findings regarding international variation are presented under three broad dimensions: social and contextual factors that shape writing curricula; the discourses of writing reflected in curricula and official documents; and hallmarks of classroom practice, including the relationship with official discourse. Case study chapters present integrated inductive and deductive document

analyses findings of which are compared in a concluding cross case analysis chapter Offering a detailed comparative analysis of writing research *International Perspectives on Writing Curricula and Development* will be of great interest to academics researchers and students in the fields of education literacy and curriculum studies It will also be relevant reading for policymakers and curriculum designers Chapters 1 7 9 10 and 11 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
