SDG Software Access and Order Reporting Procedures for Distributors

The following article describes the steps and procedures required for accessing software (including the SmartOS-to-PlumeOS transition images) and reporting customer orders for Adtran's Service Delivery Gateway (SDG) products. The instructions for each step of the distribution process, including the checklists and particular information used to complete the process, are included in the following sections:

- [Step 1: Receiving Orders](#)
- [Step 2: Addressing Prerequisites for PlumeOS SDG Orders](#)
- [Step 3: Accessing the Latest Device Images](#)
- [Step 4: Flashing the Devices](#)
- [Step 5: Reporting Plume ID and Device MAC Addresses to Adtran](#)
- [Step 6: Reporting SDG Orders to Adtran Sales & Shipping](#)

Step 1: Receiving Orders

The following section outlines the customer ordering processes for SmartOS and PlumeOS SDG devices, as well as those that will use SmartOS-to-PlumeOS transition images and PPPoE software.

Customer Ordering Process for SmartOS and PlumeOS Devices

When customers place an order for SDG devices, they will fill out the ordering spreadsheet with the required part number for the devices they want to order. The part number will indicate the device and operating system desired by the customer, based on the last letter of the part number. An S at the end of the part number indicates a SmartOS device, and a P at the end of the part number indicates a PlumeOS device.

For example, the part numbers included in [Table 1](#) would be used to indicate the order of a SmartOS or PlumeOS 834-5 SDG, as well as the country in which the device would operate:

Table 1: New 834-5 Part Numbers (with indicated OS)

New Part ID	New Part ID Description
17600021F 1S	834-5 S OS (NA)
17600021F 1P	834-5 PLUMEOS DHCP (NA)
17600021F 2S	834-5 S OS (UK)
17600021F 2P	834-5 PLUMEOS DHCP (UK)
17600021F 3S	834-5 S OS (EU)
