The Five-Year Party Craig Brandon, 2010-08-17 Colleges look much the same as they did five or ten years ago but a lot has changed behind the scenes While some mixture of study and play has always been part of college life an increasing number of schools have completely abandoned the idea that students need to learn or demonstrate that they've learned Financial pressures have made college administrations increasingly reluctant to flunk anyone out regardless of performance although the average length of time to get a degree is now five years and for many students it's six or more Student evaluations of professors often linked to promotion and tenure decisions have made professors realize that applying tough standards or any standards only hurts their own career progress For many professors it's become easier and more rewarding to focus on giving entertaining lectures and to give everyone reasonably good grades The worst of these schools are the subprime colleges where performance standards and accountability have been completely abandoned Students enjoy a five year party with minimal responsibilities while their parents pay the bills These schools investment decisions first class gyms and dining centers are all geared to attracting students that want to have a good time and their brochures all emphasize the fun aspects of the college experience there are very few pictures of students actually studying or in class And after graduation former students are frequently unable to find work in their chosen fields thanks to their school's reputation with employers and unable to afford the payments on sizeable student loans The subprime colleges which teach a significant percentage of college students are only the tip of the iceberg All colleges even the most elite have

The People's Money Scott Rasmussen, 2012-01-31 When it comes to the economy American voters can no longer count on the Political Class We are the ones who truly want progress and despite what politicians would lead us to believe we are the only ones willing to make the difficult but necessary changes that will restore our country's fiscal sanity For years Americans have elected candidates who promise to reduce spending Yet spending has steadily increased for more than half a century For just as long politicians have blamed voters claiming a lack of public support for the necessary cuts to reduce the budget deficit On the contrary evidence suggests that voters are far more willing than politicians to make the compromises to eliminate this massive burden from future generations Now influential political analyst Scott Rasmussen one of the most recognized public opinion pollsters in America proves that our politicians are intentionally perpetrating a flat out lie about their short sighted and destructive economic choices and our hard earned money In *The People's Money* Rasmussen explores clear headed responsible and reasonable ways to eliminate a deficit that is much larger than politicians would have us believe 123 trillion and counting all with the vast support of the American people This is Rasmussen on The bailouts the cause and effects and the catalyst that fueled the current era of discontent National defense and the 100 billion annual cost that could be erased today with absolutely no threat to security Social security and a plan that could not only reduce spending by trillions of dollars but offer a more satisfying plan for retirees Tax burdens and the truth behind the changes Americans are willing to make for the sake of their country Government payroll and the commonsense cuts that are necessary Health care and why the current plans from both Republicans and Democrats are financially unhealthy Drawing on a comprehensive review of history revelatory budgetary documents and enlightening public opinion polls Rasmussen lays out a step by step budget that could wipe out trillions from the national debt It's his job to call on the American people for their opinion Resoundingly they have called back with a collective voice that is at once hopeful frustrated honest and angry If only the American Political Class would listen Until then *The People's Money* is a call to arms for the people to be heard an ultimatum for a grossly out of touch American political system and one of the most provocative important informed and yet hopeful books on the economic state of the country yet written **Congressional Record** United States. Congress, 2000
